EXPLANATORY NOTE

(*This Note is not part of these regulations, but is intended to indicate their general purport.*)

Section 55 of the Land Drainage Act, 1930 authorises the Minister of Agriculture, Fisheries and Food to make grants towards expenditure incurred by Catchment Boards in the improvement of existing drainage works or the construction of new works, including, in accordance with Section 9 of the River Boards Act, 1948, gauges and other apparatus for measuring and recording information about water resources. Such grants are made subject to such conditions as may with the approval of the Treasury be prescribed by Regulations, and the Land Drainage (Grants to Catchment Boards) Regulations, 1950, prescribe such conditions. These Regulations amend the Regulations made in 1950 in the following respects. They permit an application for a grant to be signed by an authorised officer of the Catchment Board instead of by the Chairman and Clerk. They delete the requirement that a grant to meet loan charges shall not be mortgaged except to secure a loan in respect of the charges for which the grant has been made, and also provide that a Catchment Board shall render such accounts as the Minister may require, and for the certification by District Auditors of these accounts.
