The Marking of Preserved Eggs (Scotland) Amendment Regulations, 1950

1950 No. 215 (S.16)

Made - - - - 11*th February*, 1950
Coming into Operation 1*st May*, 1950
*To be laid before Parliament**

In exercise of the powers conferred upon me by Section 3 of the Agricultural Produce (Grading and Marking) Act, 1928(a), and of all other powers enabling me in that behalf, I hereby make the following Regulations:—

1. These Regulations may be cited as the Marking of Preserved Eggs (Scotland) Amendment Regulations, 1950, shall come into operation on the 1st day of May, 1950, and shall apply to Scotland only.

2. The Agricultural Produce (Grading and Marking) (Eggs) (Scotland) Regulations, 1929(b), shall be amended by the addition

(*a*) at the end of Regulation 5, of the words:—

"Provided that, if the process of preservation to which the egg has been subjected consists solely of being dipped in, sprayed with, or otherwise treated with odourless, tasteless, water-white mineral oils, the word "SEALED" shall be substituted for the word "PRESERVED""

and

(*b*) at the end of Regulation 6, of the words:—

"This Regulation shall not apply to any egg marked in compliance with Regulation 5 hereof".

Dated this 11th day of February, 1950.

Arthur Woodburn,
One of His Majesty's Principal Secretaries of State.

St. Andrew's House,
Edinburgh, 1.

EXPLANATORY NOTE

(This Note is not part of the Regulations, but is intended to indicate their general purport.)

The Agricultural Produce (Grading and Marking) (Eggs) (Scotland) Regulations, 1929, prescribe methods of marking eggs. These amending Regulations add a new designation "SEALED" for eggs preserved by a process of treating with oils. Eggs preserved by other methods will continue to be marked "PRESERVED". The Regulations also prescribe that no egg properly marked "SEALED" or "PRESERVED" requires any further mark if it passes into cold or chemical storage.
