EXPLANATORY NOTE

(This Note is not part of the Order.)

This Order specifies descriptions and classes of medicinal products (being veterinary drugs) for the purposes of section 58 of the Medicines Act 1968 and states that veterinary surgeons and veterinary practitioners are to be appropriate practitioners for the purposes of that section in relation to such products (Articles 2 and 3). By virtue of section 58 such products may be sold or supplied by retail only in accordance with a prescription given by a veterinary surgeon or veterinary practitioner and may be administered only by or in accordance with the directions of such a person. The Order also confers exemptions from those restrictions (Articles 5, 6 and 7) and prescribes conditions which must be fulfilled if a sale or supply is to be taken as being in accordance with a prescription (Article 8).

The provisions of this Order were previously contained in the Medicines (Prescription Only) Order 1980 ("the 1980 Order") as amended except that changes (including additions and omissions) have been made by this Order—

(a) in and relating to the list of substances (in column 1 of Part I of Schedule 1) which, if contained in a veterinary drug, make that drug a prescription only medicine, and

(b) to the list of named veterinary drugs (in Part II of Schedule 1) which are prescription only medicines.

Where a substance or drug appears in such a list for the first time it is shown in Schedule 1 in bold type, except where the addition results solely from a change in name.

The 1980 Order also specified other descriptions and classes of medicinal products for the purposes of section 58 and contained provisions relating to them; such products are now (with certain exceptions) specified in, and such provisions contained in, the Medicines (Products Other than Veterinary Drugs) (Prescription Only) Order 1983 which revoked the 1980 Order and its amending instruments.
