EXPLANATORY NOTE

(This Note is not part of the Regulations, but is intended to indicate their general purport.)

These Regulations substitute for the definition of " appointed doctor " in the Pottery (Health and Welfare) Special Regulations 1950 and in the Mule Spinning (Health) Special Regulations 1953 a new definition by virtue of which the appointed factory doctor for the district is the appointed doctor for the purposes of those Regulations for a factory in his district concurrently with any doctor specially appointed for those purposes for the factory. The definition replaced by these Regulations provided that the appointed factory doctor was the appointed doctor for those purposes for a factory in his district only if no other doctor had been so specially appointed.
