EXPLANATORY NOTE

(This Note is not part of the Regulations.)

These Regulations make provision requiring health authorities to make and recover charges for services forming part of the health service provided, for hospital in-patients (regulation 2(2)) or hospital out-patients (regulation 2(3)), to certain persons not ordinarily resident in the United Kingdom who have not resided in the United Kingdom for at least a year (regulation 4(b)). Various categories of services (regulations 3 and 5) and of persons (regulation 4) are exempted from the charges and provision is made for identifying the persons liable for payment (regulation 7) and for the sums paid to be repaid in certain circumstances (regulation 8).

For a transitional period exemption from liability for charges is given to certain students and others already present in the United Kingdom when the Regulations come into operation (regulation 9).

The Regulations revoke and replace the National Health Service (Charges to Overseas Visitors) Regulations 1982.
