23.—(1) A practitioner shall be entitled to make and recover—

(*a*) the appropriate charge specified in the schedule to the National Health Service Act 1951, as varied by section 1 of the National Health Service Act 1961, in respect of the supply under these regulations of such dental appliances as are covered by the said schedule; and

(4) Any acknowledgment or declaration referred to in the last two preceding paragraphs shall be obtained by the practitioner before the dental estimate form is forwarded to the Board.

(5) Any fee which but for this regulation would be payable by a Council to a practitioner in respect of the provision of any service as part of general dental services shall be reduced by the amount payable in accordance with this regulation in respect of that service.

(6) Where a declaration in support of a claim to exemption is made under the provisions of paragraph 3(*a*) of this regulation but the claim is not substantiated and in consequence of the claim a practitioner has not recovered a charge in respect of the completion of treatment, the Council shall be entitled to recover the said charge from the person concerned, whether or not such person has acknowledged the obligation to pay the charge in accordance with the provisions of paragraph (2) of this regulation.

(7) In relation to general dental services provided by a salaried practitioner at a health centre, paragraphs (1), (2) and (3) of this regulation shall have effect as if for reference to a practitioner there were substituted references to a Council, and paragraphs (4), (5) and (6) shall not apply.

(8) Any payment required to be made under this regulation shall be without prejudice to any other charge authorised by these regulations and shall not include any charge made in respect of the replacement of a denture where the replacement is required in consequence of loss or damage.

Additional charges for more expensive dental appliances and treatment

24.—(1) Where a practitioner agrees at a person's request and as part of general dental services—

(*a*) to supply a denture which is of a more expensive type than a suitable less expensive denture made of synthetic resin, vulcanite or metal with the same number of teeth, or

(*b*) to repair such a denture at a cost in excess of the cost of repairing a suitable less expensive denture made of synthetic resin, vulcanite or metal with the same number of teeth, or

he shall submit to the Board—

(i) an estimate for a suitable denture made of synthetic resin, vulcanite or metal, or for its repair, or for appropriate conservative treatment covered by item 6 or item 22 of the scale of fees, as the case may be, on a dental estimate form, and

(ii) a further estimate for an additional charge on the form set out in Part III of Schedule 4 to these regulations or on a form to the like effect.

The practitioner shall obtain the signature of the person concerned to the further estimate before submitting the forms, and he shall not proceed with any treatment specified in column B of Schedule 2 to these regulations other than emergency treatment and the treatment of British merchant seamen and deep sea fishermen about to go to sea, until approval is given.

(2) If the Board approve the estimate, they shall indicate in Part 6 of the dental estimate form the additional charge determined in accordance with the provisions of regulation 28(2) of these regulations to be paid by the patient and shall inform him of the amount.

(3) The Council shall be liable to the practitioner for such part only of the cost of services to which this regulation applies as is not by this regulation made the responsibility of the patient.

(4) Any denture or bridge or treatment supplied or provided under this regulation which, in the opinion of the Board, is required by the patient solely because of his clinical condition, or any repair of a denture so supplied, shall be supplied or provided without cost to the patient under this regulation.

(5) The provisions of this regulation shall have effect without prejudice to the provisions of regulation 23 of these regulations.

Charges for replacement necessitated by lack of care

25.—(1) Where,on the receipt of an estimate for the free replacement of a dental appliance supplied to a patient as part of general dental services, the Board consider that there are grounds for believing that the replacement may be necessitated by lack of care on the part of the patient, they shall refer the matter to the Council for investigation.

(2) On receipt of such reference the Council shall make such inquiry into the matter as they think fit and if in their opinion the circumstances so require, or if the patient so demands, the inquiry shall take the form of an oral hearing by a committee of the Council constituted for this purpose.

(3) After the completion of such inquiry the Council shall determine whether the replacement is necessitated by lack of care on the part of the patient and whether the whole or a proportion of the cost of the replacement shall be borne by the patient, and shall communicate their decision to the patient, the practitioner and the Board, and the Council shall be responsible for the payment of such part only of the cost as is not determined to be payable by the patient:

Provided that if subsequently it appears to the Council that the payment of the sum so determined to be payable by the patient would involve undue hardship, they may make such contribution thereto as they think fit.

Provisions applicable to services provided by a salaried practitioner at a health centre

26. In their application to general dental services provided by a salaried practitioner at a health centre the provisions of regulations 24 and 25 of these regulations shall be subject to the following modifications:—

(*a*) where at the request of a person a practitioner agrees to supply or repair a denture or supply a dental bridge or to provide treatment of a kind specified in regulation 24, the practitioner shall not be required to submit an estimate to the Board but, in lieu thereof, he shall give notice to a dental officer on a form to be supplied by the Council and shall not proceed with any treatment specified in Column B of Schedule 2 to these regulations, other than emergency treatment and the treatment of British merchant seamen and deep sea fishermen about to go to sea, until the approval of the dental officer is received. The notice to be given shall specify the sum to be paid by the person, which shall be determined in accordance with the provisions of regulation 28(2) of these regulations as if the service had been provided by a practitioner other than a salaried practitioner and shall be subject to the approval of the dental officer;

(*b*) any service provided under the last preceding paragraph which in the opinion of the dental officer is required by the patient concerned solely because of his clinical condition shall, subject to the provisions of regulation 23 of these regulations, be provided free of charge to that patient;

(*c*) where in connection with the free replacement of a dental appliance supplied to any patient as part of general dental services, it appears to the practitioner that there is reason to suppose that such replacement is necessitated by lack of care on the part of the patient, he shall, unless such patient admits in writing that the replacement is so necessitated, report the matter to the Council. The Council shall thereupon investigate the case in the manner provided by regulation 25(2). If on such investigation the Council are satisfied that the replacement is not necessitated by such lack of care as aforesaid, they shall so inform the patient and the practitioner. If such lack of care is admitted or determined as aforesaid, the Council shall be entitled to recover from such patient the appropriate cost for such service which would have been payable to a practitioner other than a salaried practitioner or such part of such cost as the Council may determine.

Recovery of charges

27. The practitioner, or in relation to a case falling within regulation 23(6) of these regulations or to general dental services provided by a salaried practitioner at a health centre, a Council, shall be entitled to make and recover summarily as a civil debt from any person who receives services under this part of these regulations the appropriate charges payable by the person in accordance with these regulations, and the practitioner may decline to commence or proceed with treatment until he or, as the case may be, the Council, has received payment thereof.

(*b*) the additional charge payable by a person provided with treatment under regulation 24(1)(*d*), by subtracting from the sum payable for the more expensive treatment provided the sum payable for suitable conservative treatment covered by item 6 or item 22, whichever is the case, of the scale of fees.

Salaried practitioners

Where the overpayment is not so admitted, the Council may refer the matter under regulation 4(5) of the National Health Service (Service Committees and Tribunal) Regulations 1956(a) (as amended)(b) for investigation, and if the Council or the Minister on appeal decide that there has been an overpayment, the amount overpaid shall be recovered by deduction from the practitioner's remuneration or otherwise.

Incorporation of provisions of regulations, etc.

2. Any provisions of the regulations and of Part II of the National Health Service (Service Committees and Tribunal) Regulations 1956 (as amended) affecting the rights and obligations of practitioners shall be deemed to form part of these terms of service.

3.—(1) In providing general dental services under the regulations a practitioner shall employ a proper degree of skill and attention and except where the treatment provided is solely occasional treatment shall provide the treatment necessary to secure dental fitness which the patient is willing to undergo, and shall, subject to the provisions of paragraph 9 hereof, satisfactorily complete that treatment.

(2) A practitioner shall provide proper and sufficient surgery and waiting-room accommodation for his patients.

(3) A practitioner's surgery shall be furnished with suitable equipment and a practitioner shall provide treatment with suitable instruments.

(4) A practitioner on receipt of reasonable notice in writing shall admit a dental officer at all reasonable times to any surgery or waiting-room under the practitioner's control for the purpose of inspecting the same.

(5) A practitioner shall visit and treat a patient whose condition requires a visit, at any place where that patient may be at the time within 5 miles of his surgery.

(6) A practitioner shall be responsible for providing the services of a medical or dental practitioner when necessary for the administration of an anaesthetic in connection with any operation undertaken by him under these terms of service.

Reference to another practitioner or to hospital and specialist services

4. If the condition of a person requiring general dental services is such as to require treatment which the practitioner is unable to carry out, but such treatment to the knowledge of the practitioner can be provided by another practitioner under general dental services, or is available as part of the hospital and specialist services provided under Part II of the Act, the practitioner shall inform the said person of the fact and, if the person so wishes, the practitioner shall take all necessary steps to enable him to receive such treatment. When referring a person to another practitioner or to the hospital and specialist services, the practitioner shall give adequate particulars in writing either beforehand or as soon as possible afterwards, and shall indicate on the dental estimate form that the patient has been so referred for the required treatment.

Records

5.—(1) In each case in which a practitioner provides treatment under the regulations, he shall keep a record in the form set out in Part IV of Schedule 4 to the regulations, to be provided by the Council, or in a form substantially to the like effect. The record card shall be the property of the practitioner, who shall be under a duty to retain it and, if required to do so, produce or send it within 14 days to the Board, the Council or a dental officer. Such duty shall continue for a period expiring, in the case of treatment on an estimate requiring the Board's prior approval, 18 months after the end of the financial year ending 31st March in which payment was made in respect

of that treatment, or in any other case, 6 months after the end of the said financial year or 12 months after the conclusion of the treatment, whichever is the longer.

(2) A practitioner shall retain all films taken or obtained by him as part of dental treatment for a period of 12 months after the completion of that treatment, and shall during that period submit them to the Board when requested to do so.

Fees and remuneration

6.—(1) A practitioner shall be paid such fees and other remuneration as are determined under the regulations to be payable in respect of any treatment which he is required to give under these terms of service.

(2) Except as otherwise provided in the regulations, a practitioner shall not suggest, demand or accept from any patient or from any other person the payment of any fee or remuneration in respect of any treatment which he is required to give under these terms of service:

Provided that this sub-paragraph shall not have any effect in relation to any claim made by a practitioner in respect of loss of remunerative time resulting from failure of a patient to keep an appointment.

(3) A practitioner shall not submit a dental estimate form claiming payment for the provision of general dental services—

(*a*) which have not been provided or for which a claim has already been submitted to the Board; or

(*b*) for which payment is excluded by the provisions in the scale of fees precluding payment for (i) services provided within a specified period of time, or (ii) services provided within a specified period of time without the prior approval of the Board; or

(*c*) which have been provided otherwise than in accordance with the conditions with respect to materials set out in Part VII of Schedule 5 to the regulations.

Use of dental estimate form and provision of treatment

7.—(1) (*a*) In accepting a person for treatment a practitioner shall—

(i) complete Part 8 of the dental estimate form, stating whether acceptance is for a course of treatment as detailed or for occasional treatment, and give it to the patient;

(ii) secure the completion of Part 10 of the form so far as applicable and the signing thereof by the patient or, where regulation 21 of the regulations applies, by the appropriate person;

(iii) examine the patient and complete Part 1 by charting therein in relation to the patient (*a*) all missing teeth, and (*b*) in teeth for which the practitioner proposes to provide conservative treatment, all cavities and existing conservative treatment;

(iv) set out in column 1 of Part 2 of the form the whole of the treatment necessary in his opinion to render the patient dentally fit, and, if the patient is not willing to undergo the whole of such treatment set out in column 2 of that part, the particulars of such part of that treatment as the patient is willing to undergo;

(v) insert the particulars required at the right-hand side of the said column 2 so far as appropriate;

(vi) complete Part 5 of the form and (so far as possible) Part 3.

(*b*) A practitioner shall not set out in Part 2 of the form treatment not necessary in his opinion to render the patient dentally fit.

(*c*) Before sending the form to the Board for approval of the estimate therein, in any case in which under these terms of service such approval is required before treatment is commenced, the practitioner shall complete Part 4 of the form.

(*d*) Upon completing treatment for a patient, a practitioner shall—

(i) enter the required particulars (including the name, initials and profession

of any anaesthetist, and the name and initials of any person other than himself operating during anaesthesia) in Part 7 of the form;

(ii) sign the said Part 7 with his name and initials (except where the Board allow him to use a shorter signature), in his own handwriting and not by means of a stamp;

(iii) insert the date of completion in the appropriate place in Part 2; and

(iv) obtain in Part 11 from the patient, or where the patient is under the age of 16 from the appropriate person for the purposes of regulation 21 of the regulations, a certificate that, to the best of his belief, treatment has been completed.

(2) Where the extent of the treatment which the patient is willing to undergo does not include treatment specified in column B of Schedule 2 to the regulations, the practitioner may proceed with and complete the treatment before sending the dental estimate form to the Board for approval.

(3) Where the treatment which the patient is willing to undergo includes treatment specified in column B of Schedule 2, the practitioner shall as soon as may be, and in any case within 10 days after making the examination, send the dental estimate form to the Board for approval, and shall not proceed with any treatment specified in the said column B other than emergency treatment until such approval is received:

Provided that the practitioner may proceed immediately with the treatment of British merchant seamen and deep sea fishermen about to go to sea, and in such event shall send the form to the Board for approval immediately after making the examination.

(4) (*a*) If during the course of treatment in respect of which prior approval of an estimate is not required, any variation or addition such as would have made the treatment subject to prior approval is found to be necessary, the restrictions on treatment provided by paragraph 7(3) hereof shall apply to such part of the treatment as has not been commenced and the practitioner shall as soon as reasonably practicable submit to the Board an estimate of the whole of the treatment necessary (including that which has been begun).

(*b*) If during the course of treatment in respect of which prior approval of an estimate is required, any variation of or addition to such estimate is found to be necessary, and relates to an item of treatment requiring prior approval, the practitioner shall without delay re-submit the estimate to the Board for approval and the Board may withdraw or vary their original approval in so far as treatment has not yet been carried out in accordance with such approval, or add thereto and, until the decision of the Board is received by the practitioner, the restriction on proceeding with treatment contained in paragraph 7(3) hereof shall apply.

(*c*) Where in consequence of any proceedings under the National Health Service (Service Committees and Tribunal) Regulations 1956 (as amended) in respect of general dental services provided in the area of any Council, a practitioner is required for any period to submit to the Board for prior approval all estimates in respect of any treatment (other than examination or emergency treatment), he shall during that period submit all such estimates whether relating to services in that or in any other area within 10 days after making the examination to the Board for approval and shall not carry out such treatment until the approval of the Board has been obtained.

(5) The practitioner shall complete treatment with reasonable expedition and shall not take longer than 6 months from the date upon which the patient is accepted by him for treatment, or where prior approval of the estimate is required, from the date on which such approval is received by him, as the case may be:

Provided that—

(*a*) the time limit shall be 12 months in the case of treatment including extractions and the consequent provision of dentures or such period as may be allowed by the Board in the case of orthodontic treatment;

(*b*) treatment so far as it relates to the provision of dentures shall not be regarded as completed unless the dentures have been delivered to and remain in the possession of the patient;

(*c*) the time limit shall not apply where any delay is due to failure by the patient to attend for treatment or where the Board are satisfied that there is other sufficient reason.

(6) Where a deputy or assistant signs a dental estimate form or any part of it on behalf of the practitioner whose name is inserted in Part 5 of the form he shall do so in his own name, and except in the case of a partner whose name is included in the dental list shall also insert the name of the practitioner on whose behalf he is acting.

(7) The practitioner shall within one month of the completion of the treatment send to the Board the dental estimate form.

(8) Where a practitioner has been notified that a person for whom he has provided general dental services has been requested to submit himself for examination by a dental officer or that the dental services committee or denture conciliation committee set up under the National Health Service (Service Committees and Tribunal) Regulations 1956 (as amended) will investigate a complaint or reference relating to such services, the practitioner shall not, until he has been notified that the examination has been carried out or cancelled, or that the investigation has been completed by the committee, or that the committee has no objection, provide any treatment other than emergency treatment to that person, and shall take all reasonable steps to facilitate the said examination or investigation.

Occasional treatment

8.—(1) Notwithstanding anything contained in paragraph 7 hereof, a practitioner may provide as occasional treatment any item of treatment mentioned in sub-paragraph (2) of this paragraph (being treatment which may be carried out without the prior approval of the Board) and submit a dental estimate form with the following modifications:—

(*a*) Part 1 of the form shall be cancelled by means of a line in ink drawn diagonally across it;

(*b*) only the treatment carried out need be set out in Part 2, and column 2 shall be used for this purpose.

(3) Where a practitioner submits a dental estimate form modified in accordance with the provisions of this paragraph, no fee shall be payable for a clinical examination and report.

(4) A practitioner shall not submit a dental estimate form modified under the provisions of this paragraph in respect of treatment of the kind specified in sub-paragraph (2) of this paragraph, where he has previously accepted the same patient for other treatment, not yet completed, or where on the same day he accepts him for other treatment. For the purposes of this sub-paragraph other treatment shall not include orthodontic treatment only.

Inability or unwillingness of practitioner to complete treatment

9.—(1) If owing to any cause beyond the control of the practitioner or because the practitioner refers a patient for treatment under paragraph 4 hereof, he is unable to complete any treatment which has been commenced, he shall forthwith notify the Board in writing of the amount of treatment completed, and of the reason for his

inability to complete the remainder, and shall be entitled to such payment as may be approved by the Board in respect of such treatment as has already been provided.

(2) The Council may, on the application of a practitioner, authorise him on such terms as they think just to discontinue any treatment which he has commenced, but before doing so they shall consider any representations which the patient may wish to make with respect to the application. If the application is granted the patient and the Board shall be so informed and the practitioner shall be entitled to such payment as may be approved by the Board in respect of such treatment as has already been provided.

The order shall be signed by the practitioner or by his deputy or assistant in his own handwriting and shall not be written in such a manner as to necessitate reference on the part of the person supplying the drugs to a previous order.

(2) A deputy or assistant shall in addition to signing his own name on any prescription form insert therein the name of the practitioner for whom he is acting.

(3) The form shall not be used for persons other than patients for whom the practitioner is providing general dental services and a separate form shall be used for each patient.

Deputies and assistants

12.—(1) Save as provided in this paragraph or paragraphs 4, 13 and 14 hereof, all treatment shall be given by a practitioner personally, provided that where he is prevented by reason of temporary absence from his practice through illness or other reasonable cause, treatment may be given by a deputy.

(2) In the case of two or more practitioners practising in partnership or as a principal and assistant, treatment may at any time be given by a partner or assistant of the practitioner who is responsible for the patient's treatment, if reasonable steps are taken to secure continuity of treatment.

(3) A practitioner shall not employ more than two assistants in all for the provision of general dental services without the consent of the Council or Councils in whose areas he is providing such services, or on appeal the Minister, and before giving any consent under this sub-paragraph a Council shall consult the Local Dental Committee for its area:

Provided that any consent given by or under this sub-paragraph shall be subject to review by the Council in consultation with the Local Dental Committee not less than once a year.

(4) A practitioner shall notify the Council of the employment of an assistant within 7 days of the first day of employment and forward to the Council such particulars concerning the assistant as the Council may require; and where a practitioner ceases to employ an assistant he shall notify the Council within 7 days of the cessation of employment.

(5) If a practitioner intends to absent himself from his practice for more than 21 consecutive days he shall notify the Council or the persons for whom he is providing general dental services of his intended absence and of the deputy or assistant (if any) responsible for giving treatment during his absence.

(6) A practitioner who intends to be or is absent from his practice for more than 2 months shall notify the Council in writing and shall not employ an assistant after that period without the consent of the Council.

(7) A practitioner shall not employ as an assistant any practitioner who is included in the Council's dental list as a practitioner undertaking to provide general dental services at a surgery or suite of surgeries at which the first-named practitioner undertakes to provide general dental services.

(8) Where a practitioner employs an assistant who to the practitioner's knowledge is subject to a requirement to submit estimates of any treatment (other than examination or emergency treatment) to the Board for prior approval, he shall not allow that assistant to carry out such treatment unless the prior approval of the Board has first been obtained.

Revision of terms of service

16.—(1) The Council may, with the approval of the Minister, alter the terms of service as from such date as the Minister may approve by giving notice of the proposed alteration to each practitioner.

(2) Except in the case of an alteration which results from the coming into operation of any Act of Parliament or from an amendment of any regulation, the Council shall before making an alteration consult with the Local Dental Committee and the alteration shall not come into operation within a period of 3 months from the date of the issue of the notice.

Withdrawal from dental list

17. A practitioner shall be entitled at any time to give notice in writing to the Council that he desires to withdraw his name from the dental list and his name shall be removed therefrom at the expiration of 3 months from the date of such notice or of such shorter period as the Council may agree:

Provided that—

(*a*) if representations are made to the Tribunal under section 42 of the Act that
