EXPLANATORY NOTE

(*This Note is not part of the Regulations, but is intended to indicate their general purport.*)

Regulation 5 of the principal Regulations provides that the charges for electricity shall be uniform throughout the North of Scofland District unless, in the area of any distribution scheme, the circumstances are such as to justify such different tariffs as may be approved by the Secretary of State. Under the Electricity Act, 1947, it is no longer necessary to prepare distribution schemes and the reference to the area of a distribution scheme is accordingly replaced by a reference to any area.
