# The Official Controls (Import of High-Risk Food and Feed of Non-Animal Origin) (Amendment of Commission Implementing Regulation (EU) 2019/1793) (England) Regulations 2025

| | |
|---|---|
| *Made - - - -* | *3rd November 2025* |
| *Laid before Parliament* | *5th November 2025* |
| *Coming into force - -* | *1st January 2026* |

The Secretary of State makes these Regulations in exercise of the powers conferred by Articles 53(1)(b) and 57a(6) of Regulation (EC) No 178/2002 of the European Parliament and of the Council laying down the general principles and requirements of food law, establishing the European Food Safety Authority and laying down procedures in matters of food safety(**a**) ("Regulation 178/2002") and Articles 34(6), 47(2)(b), 54(4)(a) and (b) and 144(6) of Regulation (EU) 2017/625 of the European Parliament and of the Council on official controls and other official activities performed to ensure the application of food and feed law, rules on animal health and welfare, plant health and plant protection products(**b**) ("Official Controls Regulation").

As required by Article 9 of Regulation 178/2002, there has been open and transparent public consultation during the preparation and evaluation of these Regulations.

As required by Article 144(7) of the Official Controls Regulation, the Secretary of State has consulted with such bodies or persons as appear appropriate.

**Citation, commencement, extent and application**

**1.**—(1) These Regulations may be cited as the Official Controls (Import of High-Risk Food and Feed of Non-Animal Origin) (Amendment of Commission Implementing Regulation (EU) 2019/1793) (England) Regulations 2025 and come into force on 1st January 2026.

(2) These Regulations extend to England and Wales but apply in relation to England only.

(**a**) EUR 2002/178, amended by S.I. 2019/641 and S.I. 2022/377. S.I. 2019/641 was amended by S.I. 2020/1504. See Article 3(19) of EUR 2002/178 for the definition of "appropriate authority".

(**b**) EUR 2017/625, amended by S.I. 2020/1481 and S.I. 2025/102; there are other amending instruments but none is relevant. See Article 3(2A) of EUR 2017/625 for the definition of "the appropriate authority".

**Amendment of Commission Implementing Regulation (EU) 2019/1793 on the temporary increase of official controls and emergency measures, etc.**

**2.**—(1) Commission Implementing Regulation (EU) 2019/1793 on the temporary increase of official controls and emergency measures governing the entry into the Union of certain goods from certain third countries implementing Regulations (EU) 2017/625 and (EC) No 178/2002 of the European Parliament and of the Council and repealing Commission Regulations (EC) No 669/2009, (EU) No 884/2014, (EU) 2015/175, (EU) 2017/186 and (EU) 2018/1660(**a**) is amended as follows.

(2) In Article 1(1) (subject matter and scope)—

(a) in sub-paragraphs (a) and (b)(i), for the words "CN Codes and TARIC classifications" substitute "commodity codes";

(b) in sub-paragraph (b)(ii), for "CN codes" substitute "commodity codes".

(3) For Article 2A (references to CN codes and TARIC classifications) substitute—

*"Article 2A*

**Definition of commodity code**

For the purposes of this Regulation, 'commodity code' has the meaning given in the customs tariff, as established under section 8(1) of the Taxation (Cross-border Trade) Act 2018(**b**).".

(4) In Article 5 (list of food and feed of non-animal origin) in paragraph (2), for "codes from the Combined Nomenclature and the TARIC sub-division" substitute "commodity code".

(5) In Article 7 (entry into Great Britain) in paragraph (2), after "on the basis of the" insert "commodity".

(6) For Annex I (food and feed of non-animal origin from certain third countries subject to a temporary increase of official controls at border control posts and control points), substitute the Annex contained in Schedule 1.

(7) For Annex II (food and feed from certain third countries subject to special conditions for the entry into Great Britain due to contamination risk by mycotoxins, including aflatoxins, pesticide residues, pentachlorophenol and dioxins and microbiological contamination), substitute the Annex contained in Schedule 2.

(8) In Annex IIa (food and feed from certain third countries subject to suspension of entry into Great Britain referred to in Article 11A), in the table (England)—

(a) for the column heading "**CN code**" substitute "**Commodity code**";

(b) omit the column with the heading "**TARIC sub-division**"; and

(c) in table footnote (1), for "**CN code**" in both places it appears, substitute "**commodity code**".

[1] Where only certain products under any commodity code are required to be examined, the commodity code is marked 'ex'.

[2] The sampling and the analyses must be performed in accordance with the sampling procedures and the analytical reference methods set out in point 1(a) of Annex III to this Regulation.

[3] The sampling and the analyses must be performed in accordance with the sampling procedures and the analytical reference methods set out in point 1(b) of Annex III to this Regulation.

[4] Residues of at least those pesticides listed in the control programme adopted in accordance with Article 29(2) of Regulation (EC) No 396/2005 of the European Parliament and of the Council on maximum residue levels of pesticides in or on food and feed of

plant and animal origin(**a**) that can be analysed with multi-residue methods based on GC-MS and LC-MS (pesticides to be monitored in or on products of plant origin only).
(5) Residues of Ethephon.
(6) For the purposes of this Annex, 'Sudan dyes' refers to the following chemical substances: (i) Sudan I (CAS Number 842-07-9); (ii) Sudan II (CAS Number 3118-97-6); (iii) Sudan III (CAS Number 85-86-9); (iv) Scarlet Red; or Sudan IV (CAS Number 85-83-6).
(7) Residues of Penthiopyrad.
(8) Residues of Ethylene Oxide (sum of ethylene oxide and 2-chloro-ethanol, expressed as ethylene oxide).
(9) Residues of Picoxystrobin.
(10) Residues of Trichlorfon.
(11) Residues of Anthraquinone.
(12) 'Unprocessed products' as defined in Regulation (EC) No 852/2004 of the European Parliament and of the Council on the hygiene of foodstuffs(**b**).
(13) 'Placing on the market' and 'final consumer' as respectively defined in Article 3(8) and (18) of Regulation (EC) No 178/2002.
(14) The following reference methods may be used: (1) BS EN 1988-1:1998 "Foodstuffs. Determination of sulfite - Optimized Monier-Williams method", published by the British Standards Institution on 15th June 1998 (ISBN 0 580 29239 8), available from the British Standards Institution at https://knowledge.bsigroup.com; (2) BS EN 1988-2:1998 "Foodstuffs. Determination of sulfite - Enzymatic method", published by the British Standards Institution on 15th June 1998 (ISBN 0 580 29240 1), available from the British Standards Institution at https://knowledge.bsigroup.com; (3) ISO 5522:1981 "Fruits, vegetables and derived products — Determination of total sulphur dioxide content", published by the International Organization for Standardization in September 1981, edition 1, available from the ISO at https://www.iso.org.".

# SCHEDULE 2

Regulation 2(7)

## Annex to be substituted for Annex II to Commission Implementing Regulation (EU) 2019/1793

## "ANNEX II

## Food and feed from certain third countries subject to special conditions for entry into Great Britain due to contamination risk by mycotoxins, including aflatoxins, pesticide residues and microbiological contamination

**Table 1**

**Food and feed of non-animal origin referred to in Article 1(1)(b)(i)**

(**a**) EUR 2005/396, amended by S.I. 2019/557. S.I. 2019/557 was amended by S.I. 2020/1376.
(**b**) EUR 2004/852, amended by S.I. 2019/642.

[1] Where only certain products under any commodity code are required to be examined, the commodity code is marked "ex".
[2] The sampling and the analyses must be performed in accordance with the sampling procedures and the analytical reference methods set out in point 1(a) of Annex III to this Regulation.
[3] The sampling and the analyses must be performed in accordance with the sampling procedures and the analytical reference methods set out in point 1(b) of Annex III to this Regulation.
[4] Residues of at least those pesticides listed in the control programme adopted in accordance with Article 29(2) of Regulation (EC) No 396/2005 of the European Parliament and of the Council on maximum residue levels of pesticides in or on food and feed of plant and animal origin that can be analysed with multi-residue methods based on GC-MS and LC-MS (pesticides to be monitored in or on products of plant origin only).
[5] Residues of Ethylene Oxide (sum of ethylene oxide and 2-chloro-ethanol, expressed as ethylene oxide).
[6] Residues of Picoxystrobin.
[7] Residues of Trichlorfon.

**Table 2**

**Compound food referred to in Article 1(1)(b)(ii)**

Compound food containing any of the individual products listed in Table 1 of this Annex due to risk of contamination by aflatoxins in a quantity above 20% of either a single product or as the sum of products listed.

| Commodity Code [1] | Description |
|---|---|
| ex1704 90 | Sugar confectionery (including white chocolate), not containing cocoa, other than chewing gum, whether or not sugar-coated. |
| ex1806 | Chocolate and other food preparations containing cocoa. |
| ex1905 | Bread, pastry, cakes, biscuits and other bakers' wares, whether or not containing cocoa; communion wafers, empty cachets of |

| | a kind suitable for pharmaceutical use, sealing wafers, rice paper and similar products. |
| 0910 91 | Mixtures of spices [2]. |

[1] Where only certain products under any commodity code are required to be examined, the commodity code is marked “ex”.
[2] Mixtures of two or more of the products of different headings are to be classified in heading 0910.”.

## EXPLANATORY NOTE

*(This note is not part of the Regulations)*

These Regulations amend Commission Implementing Regulation (EU) 2019/1793 on the temporary increase of official controls and emergency measures governing the entry into the Union of certain goods from certain third countries implementing Regulations (EU) 2017/625 and (EC) No 178/2002 of the European Parliament and of the Council and repealing Commission Regulations (EC) No 669/2009, (EU) No 884/2014, (EU) 2015/175, (EU) 2017/186 and (EU) 2018/1660, in relation to England ("EUR 2019/1793").

Regulation 2 updates the lists of high-risk food and feed of non-animal origin in Annexes I and II to EUR 2019/1793. Regulation 2(6) and (7), and Schedules 1 and 2, substitute those Annexes.

In addition to substituting the lists in Annexes I and II to EUR 2019/1793, insofar as they apply to England, these Regulations amend the presentation of the codes used to identify the food and feed subject to controls. References to "Combined Nomenclature (CN) codes" and "TARIC sub-divisions" are updated to a single "commodity code" to align with the United Kingdom's Integrated Tariff system. The lists are amended to remove the "ex" markings from certain commodities which are not required as a result of adopting the UK's Integrated Tariff system post EU-Exit. The Annexes are now updated to align the presentation of the commodity codes with the UK's Integrated Tariff system. Table footnotes have been revised to streamline references to analytical methods and pesticide residue controls.

Annex I to EUR 2019/1793 contains the list of food and feed of non-animal origin subject to a temporary increase in official controls at border control posts or control points in Great Britain. The changes include the addition of new commodities, removal of certain commodities, and adjustments to the frequency of identity and physical checks based on risk assessment and consultation.

Annex II to EUR 2019/1793 contains the list of food and feed of non-animal origin subject to special conditions for entry into Great Britain due to contamination risks, and a list of compound foods containing those products. The changes include the transfer of certain commodities from Annex I to Annex II, the addition of new entries, and updates to footnotes.

In each Schedule, standards are specified within some footnotes to show requirements for the analytical methods and laboratories used. The documents referred to have been published online and the online addresses are specified under each footnote where relevant. Hard copies of these documents are available for inspection at the Food Standards Agency, 64 Victoria Street, London SW1H 9EX, at reasonable times, following a written request to that address or to imported.food@food.gov.uk.

An impact assessment has not been produced for this instrument as no, or no significant, impact on the public, private or voluntary sectors is foreseen. An Explanatory Memorandum is available alongside this instrument at www.legislation.gov.uk.
