but subject to the provisions of the Summary Prosecutions Appeals (Scotland) Act, 1875,) under the provisions of the Summary Jurisdiction Acts, and in any such prosecution any person appointed by the school board, or any inspector or sub-inspector of factories, workshops, or mines, as the case may be, may appear before the court and conduct the prosecution.

It shall not be lawful to award expenses against (1) any person appointed by a school board to prosecute, whether that person is or is not a procurator fiscal; or (2) against any inspector or sub-inspector acting under the Acts regulating factories, workshops, or mines respectively.

Where a prosecution, as in this section mentioned, is instituted by a school board before a court of summary jurisdiction, no member of such school board shall be qualified to act as a member of such court.

Construction of this Act with other enactments.

15. Where any act, neglect, or default is punishable under this Act, and also under any other enactment, proceedings may be instituted in respect of such act, neglect, or default under this Act or such other enactment, so that proceedings under one enactment only be instituted in respect of the same act, neglect, or default.

CHAPTER 57.

An Act to amend and consolidate the Law relating to Patents for Inventions, Registration of Designs, and of Trade Marks. [25th August 1883.]

BE it enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:

PART I. PRELIMINARY.

PART I.

PRELIMINARY.

Short title.

1. This Act may be cited as the Patents, Designs, and Trade Marks Act, 1883.

Division of Act into parts.

2. This Act is divided into parts, as follows:—

Part I.—PRELIMINARY.
Part II.—PATENTS.
Part III.—DESIGNS.
Part IV.—TRADE MARKS.
Part V.—GENERAL.

Commencement of Act.

3. This Act, except where it is otherwise expressed, shall commence from and immediately after the thirty-first day of December one thousand eight hundred and eighty-three.

PART II. PATENTS.

PART II.

PATENTS.

Application for and Grant of Patent.

Persons entitled to apply for patent.

4. (1.) Any person, whether a British subject or not, may make an application for a patent.

(2.) Two or more persons may make a joint application for a patent, and a patent may be granted to them jointly.

Application and specification.

5. (1.) An application for a patent must be made in the form set forth in the First Schedule to this Act, or in such other form as may be from time to time prescribed; and must be left at, or sent by post to, the patent office in the prescribed manner.

(2.) An application must contain a declaration to the effect that the applicant is in possession of an invention, whereof he, or in the case of a joint application, one or more of the applicants, claims or claim to be the true and first inventor or inventors, and for which he or they desires or desire to obtain a patent; and must be accompanied by either a provisional or complete specification.

(3.) A provisional specification must describe the nature of the invention, and be accompanied by drawings, if required.

(4.) A complete specification, whether left on application or subsequently, must particularly describe and ascertain the nature of the invention, and in what manner it is to be performed, and must be accompanied by drawings, if required.

(5.) A specification, whether provisional or complete, must commence with the title, and in the case of a complete specification must end with a distinct statement of the invention claimed.

Reference of application to examiner.

6. The comptroller shall refer every application to an examiner, who shall ascertain and report to the comptroller whether the nature of the invention has been fairly described, and the application, specification, and drawings (if any) have been prepared in the prescribed manner, and the title sufficiently indicates the subject matter of the invention.

Power for comptroller to refuse application or require amendment.

7. (1.) If the examiner reports that the nature of the invention is not fairly described, or that the application specification or drawings has not or have not been prepared in the prescribed manner, or that the title does not sufficiently indicate the subject matter of the invention, the comptroller may require that the application specification or drawings be amended before he proceeds with the application.

(2.) Where the comptroller requires an amendment, the applicant may appeal from his decision to the law officer.

(3.) The law officer shall, if required, hear the applicant and the comptroller, and may make an order determining whether and subject to what conditions, if any, the application shall be accepted.

(4.) The comptroller shall, when an application has been accepted, give notice thereof to the applicant.

(5.) If after an application has been made, but before a patent has been sealed, an application is made, accompanied by a specification bearing the same or a similar title, it shall be the duty of the examiner to report to the comptroller whether the specification appears to him to comprise the same invention; and, if he reports in the affirmative, the comptroller shall give notice to the applicants that he has so reported.

(6.) Where the examiner reports in the affirmative, the comptroller may determine, subject to an appeal to the law officer, whether the invention comprised in both applications is the same, and if so he may refuse to seal a patent on the application of the second applicant.

PART II. PATENTS.

Time for leaving complete specification.

8. (1.) If the applicant does not leave a complete specification with his application, he may leave it at any subsequent time within nine months from the date of application.

(2.) Unless a complete specification is left within that time the application shall be deemed to be abandoned.

Comparison of provisional and complete specification.

9. (1.) Where a complete specification is left after a provisional specification, the comptroller shall refer both specifications to an examiner for the purpose of ascertaining whether the complete specification has been prepared in the prescribed manner, and whether the invention particularly described in the complete specification is substantially the same as that which is described in the provisional specification.

(2.) If the examiner reports that the conditions herein-before contained have not been complied with, the comptroller may refuse to accept the complete specification unless and until the same shall have been amended to his satisfaction; but any such refusal shall be subject to appeal to the law officer.

(3.) The law officer shall, if required, hear the applicant and the comptroller, and may make an order determining whether and subject to what conditions, if any, the complete specification shall be accepted.

(4.) Unless a complete specification is accepted within twelve months from the date of application, then (save in the case of an appeal having been lodged against the refusal to accept) the application shall, at the expiration of those twelve months, become void.

(5.) Reports of examiners shall not in any case be published or be open to public inspection, and shall not be liable to production or inspection in any legal proceeding, other than an appeal to the law officer under this Act, unless the court or officer having power to order discovery in such legal proceeding shall certify that such production or inspection is desirable in the interests of justice, and ought to be allowed.

Advertisement on acceptance of complete specification.

10. On the acceptance of the complete specification the comptroller shall advertise the acceptance; and the application and specification or specifications with the drawings (if any) shall be open to public inspection.

Opposition to grant of patent.

11. (1.) Any person may at any time within two months from the date of the advertisement of the acceptance of a complete specification give notice at the patent office of opposition to the grant of the patent on the ground of the applicant having obtained the invention from him, or from a person of whom he is the legal representative, or on the ground that the invention has been patented in this country on an application of prior date, or on the ground of an examiner having reported to the comptroller that the specification appears to him to comprise the same invention as is comprised in a specification bearing the same or a similar title and accompanying a previous application, but on no other ground.

(2.) Where such notice is given the comptroller shall give notice of the opposition to the applicant, and shall, on the expiration of those two months, after hearing the applicant and the person so giving notice, if desirous of being heard, decide on the case, but subject to appeal to the law officer.

(3.) The law officer shall, if required, hear the applicant and any person so giving notice and being, in the opinion of the law officer, entitled to be heard in opposition to the grant, and shall determine whether the grant ought or ought not to be made.

(4.) The law officer may, if he thinks fit, obtain the assistance of an expert, who shall be paid such remuneration as the law officer, with the consent of the Treasury, shall appoint.

Sealing of patent.

12. (1.) If there is no opposition, or, in case of opposition, if the determination is in favour of the grant of a patent, the comptroller shall cause a patent to be sealed with the seal of the patent office.

(2.) A patent so sealed shall have the same effect as if it were sealed with the Great Seal of the United Kingdom.

(3.) A patent shall be sealed as soon as may be, and not after the expiration of fifteen months from the date of application, except in the cases herein-after mentioned, that is to say—

(*a.*) Where the sealing is delayed by an appeal to the law officer, or by opposition to the grant of the patent, the patent may be sealed at such time as the law officer may direct.

(*b.*) If the person making the application dies before the expiration of the fifteen months aforesaid, the patent may be granted to his legal representative and sealed at any time within twelve months after the death of the applicant.

Date of patent.

13. Every patent shall be dated and sealed as of the day of the application: Provided that no proceedings shall be taken in respect of an infringement committed before the publication of the complete specification: Provided also, that in case of more than one application for a patent for the same invention, the sealing of a patent on one of those applications shall not prevent the sealing of a patent on an earlier application.

Provisional Protection.

Provisional protection.

14. Where an application for a patent in respect of an invention has been accepted, the invention may during the period between the date of the application and the date of sealing such patent be used and published without prejudice to the patent to be granted for the same; and such protection from the consequences of use and publication is in this Act referred to as provisional protection.

Protection by Complete Specification.

Effect of acceptance of complete specification.

15. After the acceptance of a complete specification and until the date of sealing a patent in respect thereof, or the expiration of the time for sealing, the applicant shall have the like privileges and rights as if a patent for the invention had been sealed on the date of the acceptance of the complete specification: Provided that an applicant shall not be entitled to institute any proceeding for infringement unless and until a patent for the invention has been granted to him.

Patent.

Extent of patent.

16. Every patent when sealed shall have effect throughout the United Kingdom and the Isle of Man.

Term of patent.

17. (1.) The term limited in every patent for the duration thereof shall be fourteen years from its date.

PART II. PATENTS.

(2.) But every patent shall, notwithstanding anything therein or in this Act, cease if the patentee fails to make the prescribed payments within the prescribed times.

(3.) If, nevertheless, in any case, by accident mistake or inadvertence, a patentee fails to make any prescribed payment within the prescribed time, he may apply to the comptroller for an enlargement of the time for making that payment.

(4.) Thereupon the comptroller shall, if satisfied that the failure has arisen from any of the above-mentioned causes, on receipt of the prescribed fee for enlargement, not exceeding ten pounds, enlarge the time accordingly, subject to the following conditions:

(*a.*) The time for making any payment shall not in any case be enlarged for more than three months.

(*b.*) If any proceeding shall be taken in respect of an infringement of the patent committed after a failure to make any payment within the prescribed time, and before the enlargement thereof, the Court before which the proceeding is proposed to be taken may, if it shall think fit, refuse to award or give any damages in respect of such infringement.

Amendment of Specification.

Amendment of specification.

18. (1.) An applicant or a patentee may, from time to time, by request in writing left at the patent office, seek leave to amend his specification, including drawings forming part thereof, by way of disclaimer, correction, or explanation, stating the nature of such amendment and his reasons for the same.

(2.) The request and the nature of such proposed amendment shall be advertised in the prescribed manner, and at any time within one month from its first advertisement any person may give notice at the patent office of opposition to the amendment.

(3.) Where such notice is given the comptroller shall give notice of the opposition to the person making the request, and shall hear and decide the case subject to an appeal to the law officer.

(4.) The law officer shall, if required, hear the person making the request and the person so giving notice, and being in the opinion of the law officer entitled to be heard in opposition to the request, and shall determine whether and subject to what conditions, if any, the amendment ought to be allowed.

(5.) Where no notice of opposition is given, or the person so giving notice does not appear, the comptroller shall determine whether and subject to what conditions, if any, the amendment ought to be allowed.

(6.) When leave to amend is refused by the comptroller, the person making the request may appeal from his decision to the law officer.

(7.) The law officer shall, if required, hear the person making the request and the comptroller, and may make an order determining whether, and subject to what conditions, if any, the amendment ought to be allowed.

(8.) No amendment shall be allowed that would make the specification, as amended, claim an invention substantially larger than or substantially different from the invention claimed by the specification as it stood before amendment.

(9.) Leave to amend shall be conclusive as to the right of the party to make the amendment allowed, except in case of fraud; and the amendment shall in all courts and for all purposes be deemed to form part of the specification.

(10.) The foregoing provisions of this section do not apply when and so long as any action for infringement or other legal proceeding in relation to a patent is pending.

Power to disclaim part of invention during action, &c.

19. (1.) In an action for infringement of a patent, and in a proceeding for revocation of a patent, the Court or a judge may at any time order that the patentee shall, subject to such terms as to costs and otherwise as the Court or a judge may impose, be at liberty to apply at the Patent Office for leave to amend his specification by way of disclaimer, and may direct that in the meantime the trial or hearing of the action shall be postponed.

Restriction on recovery of damages.

20. Where an amendment by way of disclaimer, correction, or explanation, has been allowed under this Act, no damages shall be given in any action in respect of the use of the invention before the disclaimer, correction, or explanation, unless the patentee establishes to the satisfaction of the Court that his original claim was framed in good faith and with reasonable skill and knowledge.

Advertisement of amendment.

21. Every amendment of a specification shall be advertised in the prescribed manner.

Compulsory Licenses.

Power for Board to order grant of licenses.

22. If on the petition of any person interested it is proved to the Board of Trade that by reason of the default of a patentee to grant licenses on reasonable terms—

(*a.*) The patent is not being worked in the United Kingdom; or

(*b.*) The reasonable requirements of the public with respect to the invention cannot be supplied; or

(*c.*) Any person is prevented from working or using to the best advantage an invention of which he is possessed,

the Board may order the patentee to grant licenses on such terms as to the amount of royalties, security for payment, or otherwise, as the Board, having regard to the nature of the invention and the circumstances of the case, may deem just, and any such order may be enforced by mandamus.

Register of Patents.

Register of patents.

23. (1.) There shall be kept at the patent office a book called the Register of Patents, wherein shall be entered the names and addresses of grantees of patents, notifications of assignments and of transmissions of patents, of licenses under patents, and of amendments, extensions, and revocations of patents, and such other matters affecting the validity or proprietorship of patents as may from time to time be prescribed.

(2.) The register of patents shall be primâ facie evidence of any matters by this Act directed or authorised to be inserted therein.

(3.) Copies of deeds, licenses, and any other documents affecting the proprietorship in any letters patent or in any license thereunder, must be supplied to the comptroller in the prescribed manner for filing in the Patent Office.

PART II. PATENTS.

Fees.

Fees in schedule.

24. (1.) There shall be paid in respect of the several instruments described in the Second Schedule to this Act, the fees in that schedule mentioned, and there shall likewise be paid, in respect of other matters under this part of the Act, such fees as may be from time to time, with the sanction of the Treasury, prescribed by the Board of Trade; and such fees shall be levied and paid to the account of Her Majesty's Exchequer in such manner as the Treasury may from time to time direct.

(2.) The Board of Trade may from time to time, if they think fit, with the consent of the Treasury, reduce any of those fees.

Extension of Term of Patent.

Extension of term of patent on petition to Queen in Council.

25. (1.) A patentee may, after advertising in manner directed by any rules made under this section his intention to do so, present a petition to Her Majesty in Council, praying that his patent may be extended for a further term; but such petition must be presented at least six months before the time limited for the expiration of the patent.

(2.) Any person may enter a caveat, addressed to the Registrar of the Council at the Council Office, against the extension.

(3.) If Her Majesty shall be pleased to refer any such petition to the Judicial Committee of the Privy Council, the said Committee shall proceed to consider the same, and the petitioner and any person who has entered a caveat shall be entitled to be heard by himself or by counsel on the petition.

(4.) The Judicial Committee shall, in considering their decision, have regard to the nature and merits of the invention in relation to the public, to the profits made by the patentee as such, and to all the circumstances of the case.

(5.) If the Judicial Committee report that the patentee has been inadequately remunerated by his patent, it shall be lawful for Her Majesty in Council to extend the term of the patent for a further term not exceeding seven, or in exceptional cases fourteen, years; or to order the grant of a new patent for the term therein mentioned, and containing any restrictions, conditions, and provisions that the Judicial Committee may think fit.

(6.) It shall be lawful for Her Majesty in Council to make, from time to time, rules of procedure and practice for regulating proceedings on such petitions, and subject thereto such proceedings shall be regulated according to the existing procedure and practice in patent matters of the Judicial Committee.

(7.) The costs of all parties of and incident to such proceedings shall be in the discretion of the Judicial Committee; and the orders of the Committee respecting costs shall be enforceable as if they were orders of a division of the High Court of Justice.

Revocation.

Revocation of patent.

26. (1.) The proceeding by scire facias to repeal a patent is hereby abolished.

(2.) Revocation of a patent may be obtained on petition to the Court.

(3.) Every ground on which a patent might, at the commencement of this Act, be repealed by scire facias shall be available by way of defence to an action of infringement and shall also be a ground of revocation.

(4.) A petition for revocation of a patent may be presented by—

(*a.*) The Attorney-General in England or Ireland, or the Lord Advocate in Scotland:

(*b.*) Any person authorised by the Attorney-General in England or Ireland, or the Lord Advocate in Scotland:

(*c.*) Any person alleging that the patent was obtained in fraud of his rights, or of the rights of any person under or through whom he claims:

(*d.*) Any person alleging that he, or any person under or through whom he claims, was the true inventor of any invention included in the claim of the patentee:

(*e.*) Any person alleging that he, or any person under or through whom he claims an interest in any trade, business, or manufacture, had publicly manufactured, used, or sold, within this realm, before the date of the patent, anything claimed by the patentee as his invention.

(5.) The plaintiff must deliver with his petition particulars of the objections on which he means to rely, and no evidence shall, except by leave of the Court or a judge, be admitted in proof of any objection of which particulars are not so delivered.

(6.) Particulars delivered may be from time to time amended by leave of the Court or a judge.

(7.) The defendant shall be entitled to begin, and give evidence in support of the patent, and if the plaintiff gives evidence impeaching the validity of the patent the defendant shall be entitled to reply.

(8.) Where a patent has been revoked on the ground of fraud, the comptroller may, on the application of the true inventor made in accordance with the provisions of this Act, grant to him a patent in lieu of and bearing the same date as the date of revocation of the patent so revoked, but the patent so granted shall cease on the expiration of the term for which the revoked patent was granted.

Crown.

27. (1.) A patent shall have to all intents the like effect as against Her Majesty the Queen, her heirs and successors, as it has against a subject. **Patent to bind Crown.**

(2.) But the officers or authorities administering any department of the service of the Crown may, by themselves, their agents, contractors, or others, at any time after the application, use the invention for the services of the Crown on terms to be before or after the use thereof agreed on, with the approval of the Treasury, between those officers or authorities and the patentee, or, in default of such agreement, on such terms as may be settled by the Treasury after hearing all parties interested.

Legal Proceedings.

28. (1.) In an action or proceeding for infringement or revocation of a patent, the Court may, if it thinks fit, and shall, on the request **Hearing with assessor.**

PART II. PATENTS.

of either of the parties to the proceeding, call in the aid of an assessor specially qualified, and try and hear the case wholly or partially with his assistance; the action shall be tried without a jury unless the court shall otherwise direct.

(2.) The Court of Appeal or the Judicial Committee of the Privy Council may, if they see fit, in any proceeding before them respectively, call in the aid of an assessor as aforesaid.

(3.) The remuneration, if any, to be paid to an assessor under this section shall be determined by the Court or the Court of Appeal or Judicial Committee, as the case may be, and be paid in the same manner as the other expenses of the execution of this Act.

Delivery of particulars.

29. (1.) In an action for infringement of a patent the plaintiff must deliver with his statement of claim, or by order of the Court or the judge, at any subsequent time, particulars of the breaches complained of.

(2.) The defendant must deliver with his statement of defence, or, by order of the Court or a judge, at any subsequent time, particulars of any objections on which he relies in support thereof.

(3.) If the defendant disputes the validity of the patent, the particulars delivered by him must state on what grounds he disputes it, and if one of those grounds is want of novelty must state the time and place of the previous publication or user alleged by him.

(4.) At the hearing no evidence shall, except by leave of the Court or a judge, be admitted in proof of any alleged infringement or objection of which particulars are not so delivered.

(5.) Particulars delivered may be from time to time amended, by leave of the Court or a judge.

(6.) On taxation of costs regard shall be had to the particulars delivered by the plaintiff and by the defendant; and they respectively shall not be allowed any costs in respect of any particular delivered by them unless the same is certified by the Court or a judge to have been proven or to have been reasonable and proper, without regard to the general costs of the case.

Order for inspection, &c., in action.

30. In an action for infringement of a patent, the Court or a judge may on the application of either party make such order for an injunction inspection or account, and impose such terms and give such directions respecting the same and the proceedings thereon as the Court or a judge may see fit.

Certificate of validity questioned and costs thereon.

31. In an action for infringement of a patent, the Court or a judge may certify that the validity of the patent came in question; and if the Court or a judge so certifies, then in any subsequent action for infringement, the plaintiff in that action on obtaining a final order or judgment in his favour shall have his full costs charges and expenses as between solicitor and client, unless the Court or judge trying the action certifies that he ought not to have the same.

Remedy in case of groundless threats of legal proceedings.

32. Where any person claiming to be the patentee of an invention, by circulars advertisements or otherwise threatens any other person with any legal proceedings or liability in respect of any alleged manufacture use sale or purchase of the invention, any person or persons aggrieved thereby may bring an action against him, and may obtain an injunction against the continuance of such threats, and may recover such damage (if any) as may have been sustained

thereby, if the alleged manufacture, use, sale, or purchase to which the threats related was not in fact an infringement of any legal rights of the person making such threats: Provided that this section shall not apply if the person making such threats with due diligence commences and prosecutes an action for infringement of his patent.

Miscellaneous.

Patent for one invention only.

33. Every patent may be in the form in the First Schedule to this Act, and shall be granted for one invention only, but may contain more than one claim; but it shall not be competent for any person in an action or other proceeding to take any objection to a patent on the ground that it comprises more than one invention.

Patent on application of representative of deceased inventor.

34. (1.) If a person possessed of an invention dies without making application for a patent for the invention, application may be made by, and a patent for the invention granted to, his legal representative.

(2.) Every such application must be made within six months of the decease of such person, and must contain a declaration by the legal representative that he believes such person to be the true and first inventor of the invention.

Patent to first inventor not invalidated by application in fraud of him.

35. A patent granted to the true and first inventor shall not be invalidated by an application in fraud of him, or by provisional protection obtained thereon, or by any use or publication of the invention subsequent to that fraudulent application during the period of provisional protection.

Assignment for particular places.

36. A patentee may assign his patent for any place in or part of the United Kingdom, or Isle of Man, as effectually as if the patent were originally granted to extend to that place or part only.

Loss or destruction of patent.

37. If a patent is lost or destroyed, or its non-production is accounted for to the satisfaction of the comptroller, the comptroller may at any time cause a duplicate thereof to be sealed.

Proceedings and costs before law officer.

38. The law officers may examine witnesses on oath and administer oaths for that purpose under this part of this Act, and may from time to time make, alter, and rescind rules regulating references and appeals to the law officers and the practice and procedure before them under this part of this Act; and in any proceeding before either of the law officers under this part of this Act, the law officer may order costs to be paid by either party, and any such order may be made a rule of the Court.

Exhibition at industrial or international exhibition not to prejudice patent rights.

39. The exhibition of an invention at an industrial or international exhibition, certified as such by the Board of Trade, or the publication of any description of the invention during the period of the holding of the exhibition, or the use of the invention for the purpose of the exhibition in the place where the exhibition is held, or the use of the invention during the period of the holding of the exhibition by any person elsewhere, without the privity or consent of the inventor, shall not prejudice the right of the inventor or his legal personal representative to apply for and obtain provisional protection and a patent in respect of the invention or the validity of any patent granted on the application, provided that both the following conditions are complied with, namely,—

(*a.*) The exhibitor must, before exhibiting the invention, give the comptroller the prescribed notice of his intention to do so; and

PART II. PATENTS.

(*b.*) The application for a patent must be made before or within six months from the date of the opening of the exhibition.

Publication of illustrated journal, indexes, &c.

40. (1.) The comptroller shall cause to be issued periodically an illustrated journal of patented inventions, as well as reports of patent cases decided by courts of law, and any other information that the comptroller may deem generally useful or important.

(2.) Provision shall be made by the comptroller for keeping on sale copies of such journal, and also of all complete specifications of patents for the time being in force, with their accompanying drawings, if any.

(3.) The comptroller shall continue, in such form as he may deem expedient, the indexes and abridgments of specifications hitherto published, and shall from time to time prepare and publish such other indexes, abridgments of specifications, catalogues, and other works relating to inventions, as he may see fit.

Patent Museum.

41. The control and management of the existing Patent Museum, and its contents shall from and after the commencement of this Act, be transferred to and vested in the Department of Science and Art, subject to such directions as Her Majesty in Council may see fit to give.

Power to require models on payment.

42. The Department of Science and Art may at any time require a patentee to furnish them with a model of his invention on payment to the patentee of the cost of the manufacture of the model; the amount to be settled, in case of dispute, by the Board of Trade.

Foreign vessels in British waters.

43. (1.) A patent shall not prevent the use of an invention for the purposes of the navigation of a foreign vessel within the jurisdiction of any of Her Majesty's Courts in the United Kingdom, or Isle of Man, or the use of an invention in a foreign vessel within that jurisdiction, provided it is not used therein for or in connexion with the manufacture or preparation of anything intended to be sold in or exported from the United Kingdom or Isle of Man.

(2.) But this section shall not extend to vessels of any foreign state of which the laws authorise subjects of such foreign state, having patents or like privileges for the exclusive use or exercise of inventions within its territories, to prevent or interfere with the use of such inventions in British vessels while in the ports of such foreign state, or in the waters within the jurisdiction of its courts, where such inventions are not so used for the manufacture or preparation of anything intended to be sold in or exported from the territories of such foreign state.

Assignment to Secretary for War of certain inventions.

44. (1.) The inventor of any improvement in instruments or munitions of war, his executors, administrators, or assigns (who are in this section comprised in the expression the inventor) may (either for or without valuable consideration) assign to Her Majesty's Principal Secretary of State for the War Department (herein-after referred to as the Secretary of State), on behalf of Her Majesty, all the benefit of the invention and of any patent obtained or to be obtained for the same; and the Secretary of State may be a party to the assignment.

(2.) The assignment shall effectually vest the benefit of the invention and patent in the Secretary of State for the time being on behalf of Her Majesty, and all covenants and agreements therein contained for keeping the invention secret and otherwise shall be

valid and effectual (notwithstanding any want of valuable consideration), and may be enforced accordingly by the Secretary of State for the time being.

(3.) Where any such assignment has been made to the Secretary of State, he may at any time before the application for a patent for the invention, or before publication of the specification or specifications, certify to the comptroller his opinion that, in the interest of the public service, the particulars of the invention and of the manner in which it is to be performed should be kept secret.

(4.) If the Secretary of State so certifies, the application and specification or specifications with the drawings (if any), and any amendment of the specification or specifications, and any copies of such documents and drawings, shall, instead of being left in the ordinary manner at the patent office, be delivered to the comptroller in a packet sealed by authority of the Secretary of State.

(5.) Such packet shall until the expiration of the term or extended term during which a patent for the invention may be in force, be kept sealed by the comptroller, and shall not be opened save under the authority of an order of the Secretary of State, or of the law officers.

(6.) Such sealed packet shall be delivered at any time during the continuance of the patent to any person authorised by writing under the hand of the Secretary of State to receive the same, and shall if returned to the comptroller be again kept sealed by him.

(7.) On the expiration of the term or extended term of the patent, such sealed packet shall be delivered to any person authorised by writing under the hand of the Secretary of State to receive it.

(8.) Where the Secretary of State certifies as aforesaid, after an application for a patent has been left at the patent office, but before the publication of the specification or specifications, the application specification or specifications, with the drawings (if any), shall be forthwith placed in a packet sealed by authority of the comptroller, and such packet shall be subject to the foregoing provisions respecting a packet sealed by authority of the Secretary of State.

(9.) No proceeding by petition or otherwise shall lie for revocation of a patent granted for an invention in relation to which the Secretary of State has certified as aforesaid.

(10.) No copy of any specification or other document or drawing, by this section required to be placed in a sealed packet, shall in any manner whatever be published or open to the inspection of the public, but save as in this section otherwise directed, the provisions of this part of this Act shall apply in respect of any such invention and patent as aforesaid.

(11.) The Secretary of State may, at any time by writing under his hand, waive the benefit of this section with respect to any particular invention, and the specifications documents and drawings shall be thenceforth kept and dealt with in the ordinary way.

(12.) The communication of any invention for any improvement in instruments or munitions of war to the Secretary of State, or to any person or persons authorised by him to investigate the same or the merits thereof, shall not, nor shall anything done for the purposes of the investigation, be deemed use or publication of such

invention so as to prejudice the grant or validity of any patent for the same.

(2.) If such fee be not paid before the expiration of such fourteen years the comptroller may after the end of three months from the expiration of such fourteen years remove the mark from the register, and so from time to time at the expiration of every period of fourteen years.

(8.) Where the comptroller receives from any person not carrying on business in Hallamshire or within six miles thereof an application for registration of a trade mark used on cutlery,

FORM OF PATENT.

VICTORIA, by the grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith: To all to whom these presents shall come greeting:

Whereas *John Smith*, of 29, *Perry Street, Birmingham*, in the county of *Warwick, Engineer*, hath by his solemn declaration represented unto us that he is in possession of an invention for "*Improvements in Sewing Machines*," that he is the true and first inventor thereof, and that the same is not in use by any other person to the best of his knowledge and belief:

And whereas the said inventor hath humbly prayed that we would be graciously pleased to grant unto him (herein-after together with his executors, administrators, and assigns, or any of them, referred to as the said patentee) our Royal Letters Patent for the sole use and advantage of his said invention:

And whereas the said inventor hath by and in his complete specification particularly described the nature of his invention:

And whereas we being willing to encourage all inventions which may be for the public good, are graciously pleased to condescend to his request:

Know ye, therefore, that We, of our especial grace, certain knowledge, and mere motion do by these presents, for us, our heirs and successors, give and grant unto the said patentee our especial license, full power, sole privilege, and authority, that the said patentee by himself, his agents, or licensees, and no others, may at all times hereafter during the term of years herein

mentioned, make, use, exercise, and vend the said invention within our United Kingdom of Great Britain and Ireland, and Isle of Man, in such manner as to him or them may seem meet, and that the said patentee shall have and enjoy the whole profit and advantage from time to time accruing by reason of the said invention, during the term of fourteen years from the date hereunder written of these presents: And to the end that the said patentee may have and enjoy the sole use and exercise and the full benefit of the said invention, We do by these presents for us our heirs and successors, strictly command all our subjects whatsoever within our United Kingdom of Great Britain and Ireland, and the Isle of Man, that they do not at any time during the continuance of the said term of fourteen years either directly or indirectly make use of or put in practice the said invention, or any part of the same, nor in anywise imitate the same, nor make or cause to be made any addition thereto or subtraction therefrom, whereby to pretend themselves the inventors thereof, without the consent licence or agreement of the said patentee in writing under his hand and seal, on pain of incurring such penalties as may be justly inflicted on such offenders for their contempt of this our Royal command, and of being answerable to the patentee according to law for his damages thereby occasioned: Provided that these our letters patent are on this condition, that, if at any time during the said term it be made to appear to us, our heirs, or successors, or any six or more of our Privy Council, that this our grant is contrary to law, or prejudicial or inconvenient to our subjects in general, or that the said invention is not a new invention as to the public use and exercise thereof within our United Kingdom of Great Britain and Ireland, and Isle of Man, or that the said patentee is not the first and true inventor thereof within this realm as aforesaid, these our letters patent shall forthwith determine, and be void to all intents and purposes, notwithstanding anything herein-before contained: Provided also, that if the said patentee shall not pay all fees by law required to be paid in respect of the grant of these letters patent, or in respect of any matter relating thereto at the time or times, and in manner for the time being by law provided; and also if the said patentee shall not supply or cause to be supplied, for our service all such articles of the said invention as may be required by the officers or commissioners administering any department of our service in such manner, at such times, and at and upon such reasonable prices and terms as shall be settled in manner for the time being by law provided, then, and in any of the said cases, these our letters patent, and all privileges and advantages whatever hereby granted shall determine and become void notwithstanding anything herein-before contained: Provided also that nothing herein contained shall prevent the granting of licences in such manner and for such considerations as they may by law be granted: And lastly, we do by these presents for us, our heirs and successors, grant unto the said patentee that these our letters patent shall be construed in the most beneficial sense for the advantage of the said patentee.
