STATUTORY INSTRUMENTS

1977 No. 2115

LOCAL GOVERNMENT, ENGLAND AND WALES

The Rate Support Grant (Increase) (No. 2) Order 1977

Made - - - -	23*rd November* 1977
Laid before the House of Commons - -	30*th November* 1977
Coming into Operation	16*th December* 1977

The Secretary of State for the Environment, as respects this order (other than article 5 thereof), and the Secretary of State for Transport (as respects article 5) in exercise of the powers conferred on them by section 4 of the Local Government Act 1974(**a**), and of all other powers enabling them in that behalf, with the consent of the Treasury and after consultation with the associations of local authorities appearing to them to be concerned and the local authority with whom consultation appeared to them to be desirable, hereby make the following order:—

Title and commencement

1. This order may be cited as the Rate Support Grant (Increase) (No. 2) Order 1977 and shall come into operation on the day following the day on which it is approved by a resolution of the Commons House of Parliament.

Interpretation

2.—(1) In this order—

"the Act" means the Local Government Act 1974;

"the Order" means the Rate Support Grant Order 1976(**b**).

(2) The Interpretation Act 1889(**c**) shall apply for the interpretation of this order as it applies for the interpretation of an Act of Parliament.

Increase of rate support grants and needs element

3. The amounts fixed by article 3(1) of the Order as the estimated aggregate amount of the rate support grants and the aggregate amount of the needs element for the year 1977-8 as set out in column (2) of the following table shall be increased pursuant to section 4 of the Act (which provides for an increase where there is an increase of costs of which no account was taken when the amounts were originally fixed), by the amounts specified in column (3) to produce the respective totals shown in column (4).

(a) 1974 c. 7. (b) S.I. 1976/2203 (1976 III, p. 6161). (c) 1889 c. 63.

TABLE

For the year 1977-8 (1)	Amounts fixed by the Order (2)	Increase under section 4 of the Act (3)	Totals (4)
Estimated aggregate amount of rate support grants ...	£6,157,000,000	£313,000,000	£6,470,000,000
Aggregate amount of needs element	£3,712,000,000	£211,000,000	£3,923,000,000

Amount of resources element

4.—(1) The actual aggregate amount of the resources element for the year 1977-8 is (pursuant to subsections (4) and (5)(*a*) of section 4 of the Act) hereby specified as £1,890,000,000.

(2) The amount of the resources element payable to a local authority entitled to payment in respect of that element shall be correspondingly varied in such manner that the amount payable to that authority shall bear the same ratio to the amount which would have been payable to that authority under the Order, apart from this order, as the actual aggregate amount of the resources element as specified by article 4(1) above bears to the aggregate of the amounts calculated pursuant to Part III of Schedule 2 to the Act in relation to all such authorities.

Increase of transport supplementary grant

5. The amount fixed by article 3(2) of the Order as the aggregate amount of supplementary grants under section 6 of the Act (supplementary grants for transport purposes) shall be increased from £255,000,000 to £279,000,000.

Increase of supplementary grants for National Parks

6. The amount fixed by article 3(3) of the Order as the aggregate amount of supplementary grants under section 7 of the Act (supplementary grants towards expenditure with respect to National Parks) shall be increased from £3,400,000 to £3,600,000.

Needs element—additional factors

7. The manner of determining the additional amount of needs element attributable to any additional factor prescribed by the Schedule to the Order for the purposes of paragraph 1(*b*) of Schedule 2 to the Act as respects the year 1977-8 and referred to in column (1) of the following table shall be varied by substituting for the manner of determination set out in column (2) that specified in column (3).

TABLE

Additional factor (1)	*Existing manner of determining additional amount* (2)	*Substituted manner* (3)
1. In relation to the council of a non-metropolitan county, a metropolitan district or the Council of the Isles of Scilly—		
(*a*) The number of acres comprised in their area minus a number equivalent to 1.5 times the population of their area (if the resultant number is a positive number);	Multiplying that number by £5.735	Multiplying that number by £6.046
(*b*) The number of acres comprised in their area minus a number equivalent to 3.0 times the population of their area (if the resultant number is a positive number);	Multiplying that number by £2.018	Multiplying that number by £2.127
(*c*) The number of persons in their area living in parishes or wards or parts of parishes or wards whose density exceeded 50 persons per hectare at the date of the 1971 census, multiplied by the population of their area on 30th June 1976 and divided by the population of their area at the date of the 1971 census;	Multiplying that number by £4.97	Multiplying that number by £5.24
(*d*) The number of new permanent dwellings started in their area during the period from 1st April 1974 to 31st March 1977, insofar as it exceeds 55 per 10,000 of the population of their area;	Multiplying that number by £131.7	Multiplying that number by £138.8

Additional factor (1)	*Existing manner of determining additional amount* (2)	*Substituted manner* (3)
(*e*) The number by which the population of their area on 30th June 1966 exceeded that on 30th June 1976;	Multiplying that number by £24.61	Multiplying that number by £25.94
(*f*) The number by which the population of their area on 30th June 1971 exceeded that on 30th June 1976— multiplied by one thousandth of the population of their area.	Multiplying that number by £0.0401	Multiplying that number by £0.0423
(*g*) The number of men 65 years of age or over and women 60 years of age or over living alone in their area at the date of the 1971 census, multiplied by the number of persons 65 years of age or over living in their area on 30th June 1976 and divided by the number of persons 65 years of age or over living in their area at the date of the 1971 census, insofar as the resultant number exceeds 272 per 10,000 of the population of their area;	Multiplying that number by £508.4	Multiplying that number by £536.0
(*h*) The number of persons in their area living in permanent or non-permanent buildings in households without the exclusive use of hot water supply, fixed bath or inside water closet at the date of the 1971 census, insofar as it exceeds 175 per 10,000 of the population of their area;	Multiplying that number by £57.01	Multiplying that number by £60.10

Additional factor (1)	*Existing manner of determining additional amount* (2)	*Substituted manner* (3)
(*i*) The number of persons in their area living in permanent buildings with a density of occupation greater than 1½ persons per room at the date of the 1971 census, insofar as it exceeds 103 per 10,000 of the population of their area;	Multiplying that number by £169.4	Multiplying that number by £178.6
(*j*) The number of persons in their area living in shared households in permanent buildings at the date of the 1971 census, insofar as it exceeds 15 per 10,000 of the population of their area;	Multiplying that number by £53.6	Multiplying that number by £56.5
(*k*) The number of lone parent families with dependent children in their area at the date of the 1971 census, insofar as it exceeds 71 per 10,000 of the population of their area;	Multiplying that number by £1925.8	Multiplying that number by £2,030.2
(*l*) The number of primary school pupils in their area, insofar as it exceeds 705 per 10,000 of the population of their area;	Multiplying that number by £452.2	Multiplying that number by £476.7
(*m*) The number of secondary or special school pupils under 16 years of age in their area, insofar as it exceeds 595 per 10,000 of the population of their area;	Multiplying that number by £677.0	Multiplying that number by £713.7

Additional factor (1)	*Existing manner of determining additional amount* (2)	*Substituted manner* (3)
(*n*) The number of secondary or special school pupils 16 years of age or over in their area insofar as it exceeds 27 per 10,000 of the population of their area;	Multiplying that number by £863.0	Multiplying that number by £909.8
(*o*) The number of pupils under 16 years of age who are attending direct grant grammar schools at the expense of the council;	Multiplying that number by £510.0	Multiplying that number by £537.6
(*p*) The number of pupils 16 years of age or over who are attending direct grant grammar schools at the expense of the council;	Multiplying that number by £604.0	Multiplying that number by £636.7
(*q*) The number of students, full time or full time equivalent in establishments of further education in their area, insofar as it exceeds 38 per 10,000 of the population of their area;	Multiplying that number by £958.9	Multiplying that number by £1,010.9
(*r*) The number of persons in their area unemployed and registered for employment, insofar as it exceeds 60 per 10,000 of the population of their area;	Multiplying that number by £194.8	Multiplying that number by £205.4
(*s*) In relation only to the council of the county of Bedfordshire, Berkshire, Buckinghamshire, Essex, Hampshire, Hertfordshire, Kent, Oxfordshire or Surrey, the amount of the labour cost differential in their area multiplied by the population of their area;	Multiplying that amount by 2.244	Multiplying that amount by 2.366

Additional factor (1)	*Existing manner of determining additional amount* (2)	*Substituted manner* (3)
(*t*) the number of the population of their area.	Multiplying that number by £3.37	Multiplying that number by £3.55
2. In relation to an Outer London borough council—		
(*a*) The number of the population of their area;	Multiplying that number by £19.27 and multiplying the result by the adjustment coefficient	Multiplying that number by £20.31 and multiplying the result by the adjustment coefficient as varied by this order
(*b*) The number of persons in their area living in parishes or wards whose density exceeded 60 persons per hectare at the date of the 1971 census multiplied by the population of their area on 30th June, 1976, and divided by the population of their area at the date of the 1971 census, insofar as the resultant number exceeds 425 per 10,000 of the population of their area;	Multiplying that number by £16.51 and multiplying the result by the adjustment coefficient	Multiplying that number by £17.41 and multiplying the result by the adjustment coefficient as varied by this order
(*c*) The number of new permanent dwellings started in their area during the period from 1st April 1974 to 31st March 1977, insofar as it exceeds 12 per 10,000 of the population of their area;	Multiplying that number by £957.1 and multiplying the result by the adjustment coefficient	Multiplying that number by £1,009·0 and multiplying the result by the adjustment coefficient as varied by this order
(*d*) The number by which the population of their area on 30th June 1966 exceeded that on 30th June 1976;	Multiplying that number by £93.66 and multiplying the result by the adjustment coefficient	Multiplying that number by £98.74 and multiplying the result by the adjustment coefficient as varied by this order

Additional factor (1)	*Existing manner of determining additional amount* (2)	*Substituted manner* (3)
(*e*) The number by which the population of their area on 30th June 1971 exceeded that on 30th June 1976, multiplied by one thousandth of the population of their area;	Multiplying that number by £0.5432 and multiplying the result by the adjustment coefficient	Multiplying that number by £0.5726 and multiplying the result by the adjustment ceofficient as varied by this order
(*f*) The number by which the population of their area on 30th June 1971 exceeded that on 30th June 1976;	Multiplying that number by £162.6 and multiplying the result by the adjustment coefficient	Multiplying that number by £171.4 and multiplying the result by the adjustment coefficient as varied by this order
(*g*) The number by which the population of their area on 30th June 1976 exceeded that on 30th June 1971, multiplied by one thousandth of the population of their area;	Multiplying that number by £4.1 and multiplying the result by the adjustment coefficient	Multiplying that number by £4.3 and multiplying the result by the adjustment coefficient as varied by this order
(*h*) The number of men 65 years of age or over and women 60 years of age or over living alone in their area at the date of the 1971 census multiplied by the number of persons 65 years of age or over living in their area on 30th June 1976 and divided by the number of persons 65 years of age or over living in their area at the date of the 1971 census, insofar as the resultant number exceeds 270 per 10,000 of the population of their area;	Multiplying that number by £475.1 and multiplying the result by the adjustment coefficient	Multiplying that number by £500.9 and multiplying the result by the adjustment coefficient as varied by this order

Additional factor (1)	*Existing manner of determining additional amount* (2)	*Substituted manner* (3)
(*i*) The number of persons in their area living in permanent buildings with a density of occupation greater than 1½ persons per room at the date of the 1971 census, insofar as it exceeds 115 per 10,000 of the population of their area;	Multiplying that number by £217.9 and multiplying the result by the adjustment coefficient	Multiplying that number by £229.7 and multiplying the result by the adjustment coefficient as varied by this order
(*j*) The number of children under 5 years of age living in their area insofar as it exceeds 520 per 10,000 of the population of their area;	Multiplying that number by £301.1 and multiplying the result by the adjustment coefficient	Multiplying that number by £317.4 and multiplying the result by the adjustment coefficient as varied by this order
(*k*) The number of families with 3 or more children living in their area at the date of the 1971 census insofar as it exceeds 165 per 10,000 of the population of their area;	Multiplying that number by £591.4 and multiplying the result by the adjustment coefficient	Multiplying that number by £623.5 and multiplying the result by the adjustment coefficient as varied by this order
(*l*) The number of children in care in their area insofar as it exceeds 8 per 10,000 of the population of their area;	Multiplying that number by £3,386.0 and multiplying the result by the adjustment coefficient	Multiplying that number by £3,569.6 and multiplying the result by the adjustment coefficient as varied by this order
(*m*)The number of the day time population of their area at the date of the 1971 census insofar as it exceeds 8250 per 10,000 of the population of their area;	Multiplying that number by £20.19 and multiplying the result by the adjustment coefficient	Multiplying that number by £21.28 and multiplying the result by the adjustment coefficient as varied by this order
(*n*) The number of primary school pupils in their area insofar as it exceeds 630 per 10,000 of the population of their area;	Multiplying that number by £301.9 and multiplying the result by the adjustment coefficient	Multiplying that number by £318.3 and multiplying the result by the adjustment coefficient as varied by this order

Additional factor (1)	*Existing manner of determining additional amount* (2)	*Substituted manner* (3)
(*o*) The number of secondary or special school pupils under 16 years of age in their area, insofar as it exceeds 490 per 10,000 of the population of their area;	Multiplying that number by £413.9 and multiplying the result by the adjustment coefficient	Multiplying that number by £436.3 and multiplying the result by the adjustment coefficient as varied by this order
(*p*) The number of secondary or special school pupils 16 years of age or over in their area insofar as it exceeds 40 per 10,000 of the population of their area;	Multiplying that number by £430.0 and multiplying the result by the adjustment coefficient	Multiplying that number by £453.3 and multiplying the result by the adjustment coefficient as varied by this order
(*q*) The number of pupils under 16 years of age who are attending direct grant grammar schools at the expense of the council;	Multiplying that number by £427.0 and multiplying the result by the adjustment coefficient	Multiplying that number by £450.1 and multiplying the result by the adjustment coefficient as varied by this order
(*r*) The number of pupils 16 years of age or over who are attending direct grant grammar schools at the expense of the council;	Multiplying that number by £301.0 and multiplying the result by the adjustment coefficient	Multiplying that number by £317.3 and multiplying the result by the adjusment coefficient as varied by this order
(*s*) The number of students full time or full time equivalent in establishments of further education in their area insofar as it exceeds 30 per 10,000 of the population of their area;	Multiplying that number by £478.0 and multiplying the result by the adjustment coefficient	Multiplying that number by £503.9 and multiplying the result by the adjustment coefficient as varied by this order
(*t*) The number of the population of that part of the Metropolitan Police District within the area of Greater London;	Multiplying that number by the product of £6.49, the Metropolitan Police District rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £6.84, the Metropolitan Police District rateable value ratio and the adjustment coefficient as varied by this order

Additional factor (1)	*Existing manner of determining additional amount* (2)	*Substituted manner* (3)
(*u*) The number of the population of the area of Greater London.	Multiplying that number by the product of £17.11, the Greater London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £18.04, the Greater London rateable value ratio and the adjustment coefficient as varied by this order
3. In relation to an Inner London borough council—		
(1) The additional factors set out in the following sub-paragraphs of paragraph 2 above—		
sub-paragraph (*a*)	Multiplying that number by £2.4 and multiplying the result by the adjustment coefficient	Multiplying that number by £2.5 and multiplying the result by the adjustment coefficient as varied by this order
sub-paragraph (*b*)	Multiplying that number by £16.51 and multiplying the result by the adjustment coefficient	Multiplying that number by £17.41 and multiplying the result by the adjustment coefficient as varied by this order
sub-paragraph (*c*)	Multiplying that number by £687.7 and multiplying the result by the adjustment coefficient	Multiplying that number by £725.0 and multiplying the result by the adjustment coefficient as varied by this order
sub-paragraph (*d*)	Multiplying that number by £93.66 and multiplying the result by the adjustment coefficient	Multiplying that number by £98.74 and multiplying the result by the adjustment coefficient as varied by this order
sub-paragraph (*e*)	Multiplying that number by £0.5127 and multiplying the result by the adjustment coefficient	Multiplying that number by £0.5405 and multiplying the result by the adjustment coefficient as varied by this order
sub-paragraph (*h*)	Multiplying that number by £475.1 and multiplying the result by the adjustment coefficient	Multiplying that number by £500.9 and multiplying the result by the adjustment coefficient as varied by this order

Additional factor (1)	*Existing manner of determining additional amount* (2)	*Substituted manner* (3)
sub-paragraph (*k*)	Multiplying that number by £591.4 and multiplying the result by the adjustment coefficient	Multiplying that number by £623.5 and multiplying the result by the adjustment coefficient as varied by this order
sub-paragraph (*l*)	Multiplying that number by £3,386.0 and multiplying the result by the adjustment coefficient	Multiplying that number by £3,569.6 and multiplying the result by the adjustment coefficient as varied by this order
sub-paragraph (*m*)	Multiplying that number by £20.19 and multiplying the result by the adjustment coefficient	Multiplying that number by £21.28 and multiplying the result by the adjustment coefficient as varied by this order
(2) The additional factors set out in the following sub-paragraphs of paragraph 2 above—		
sub-paragraph (*a*)	Multiplying that number by the product of £16.88, the Inner London rateable value ~~ratio~~ and the adjustment coefficient	Multiplying that number by the product of £17.80, the Inner London rateable value ratio and the adjustment coefficient as varied by this order
sub-paragraph (*c*)	Multiplying that number by the product of £269.4, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £284.0, the Inner London rateable value ratio and the adjustment coefficient as varied by this order
sub-paragraph (*e*)	Multiplying that number by the product of £0.0305, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £0.0322, the Inner London rateable value ratio and the adjustment coefficient as varied by this order
sub-paragraph (*f*)	Multiplying that number by the product of £162.6, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £171.4, the Inner London rateable value ratio and the adjustment coefficient as varied by this order

Additional factor (1)	*Existing manner of determining additional amount* (2)	*Substituted manner* (3)
sub-paragraph (*i*)	Multiplying that number by the product of £217.9, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £229.7, the Inner London rateable value ratio and the adjustment coefficient as varied by this order
sub-paragraph (*j*)	Multiplying that number by the product of £301.1, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £317.4, the Inner London rateable value ratio and the adjustment coefficient as varied by this order
sub-paragraph (*n*)	Multiplying that number by the product of £301.9, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £318.3, the Inner London rateable value ratio and the adjustment coefficient as varied by this order
sub-paragraph (*o*)	Multiplying that number by the product of £413.9, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £436.3, the Inner London rateable value ratio and the adjustment coefficient as varied by this order
sub-paragraph (*p*)	Multiplying that number by the product of £430.0, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £453.3, the Inner London rateable value ratio and the adjustment coefficient as varied by this order
sub-paragraph (*q*)	Multiplying that number by the product of £427.0, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £450.1, the Inner London rateable value ratio and the adjustment coefficient as varied by this order
sub-paragraph (*r*)	Multiplying that number by the product of £301.0, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £317.3, the Inner London rateable value ratio and the adjustment coefficient as varied by this order

Additional factor (1)	*Existing manner of determining additional amount* (2)	*Substituted manner* (3)
sub-paragraph (*s*)	Multiplying that number by the product of £478.0, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £503.9, the Inner London rateable value ratio and the adjustment coefficient as varied by this order
with the substitution for references to their area of references to the area of Inner London; and in sub-paragraphs (*q*) and (*r*) for references to the council of references to the Inner London Education Authority;		
(3) The additional factors set out in the following sub-paragraphs of paragraph 2 above—		
sub-paragraph (*t*)	Multiplying that number by the product of £6.49, the Metropolitan Police District rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £6.84, the Metropolitan Police District rateable value ratio and the adjustment coefficient as varied by this order
sub-paragraph (*u*)	Multiplying that number by the product of £17.11, the Greater London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £18.04, the Greater London rateable value ratio and the adjustment coefficient as varied by this order
4. In relation to the Common Council of the City of London—		
(1) The additional factor set out in sub-paragraph (*m*) of paragraph 2 above	Multiplying that number by £84.29 and multiplying the result by the adjustment coefficient	Multiplying that number by £88.86 and multiplying the result by the adjustment coefficient as varied by this order
(2) The additional factors set out in the following sub-paragraphs of paragraph 2 above—		

Additional factor (1)	*Existing manner of determining additional amount* (2)	*Substituted manner* (3)
sub-paragraph (*a*)	Multiplying that number by the product of £16.88, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £17.80, the Inner London rateable value ratio and the adjustment coefficient as varied by this order
sub-paragraph (*c*)	Multiplying that number by the product of £269.4, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £284.0, the Inner London rateable value ratio and the adjustment coefficient as varied by this order
sub-paragraph (*e*)	Multiplying that number by the product of £0.0305, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £0.0322, the Inner London rateable value ratio and the adjustment coefficient as varied by this order
sub-paragraph (*f*)	Multiplying that number by the product of £162.6, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £171.4, the Inner London rateable value ratio and the adjustment coefficient as varied by this order
sub-paragraph (*i*)	Multiplying that number by the product of £217.9, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £229.7, the Inner London rateable value ratio and the adjustment coefficient as varied by this order
sub-paragraph (*j*)	Multiplying that number by the product of £301.1, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £317.4, the Inner London rateable value ratio and the adjustment coefficient as varied by this order
sub-paragraph (*n*)	Multiplying that number by the product of £301.9, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £318.3, the Inner London rateable value ratio and the adjustment coefficient as varied by this order

Additional factor (1)	*Existing manner of determining additional amount* (2)	*Substituted manner* (3)
sub-paragraph (*o*)	Multiplying that number by the product of £413.9, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £436.3, the Inner London rateable value ratio and the adjustment coefficient as varied by this order
sub-paragraph (*p*)	Multiplying that number by the product of £430.0, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £453.3, the Inner London rateable value ratio and the adjustment coefficient as varied by this order
sub-paragraph (*q*)	Multiplying that number by the product of £427.0, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £450.1, the Inner London rateable value ratio and the adjustment coefficient as varied by this order
sub-paragraph (*r*)	Multiplying that number by the product of £301.0, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £317.3, the Inner London rateable value ratio and the adjustment coefficient as varied by this order
sub-paragraph (*s*)	Multiplying that number by the product of £478.0, the Inner London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £503.9, the Inner London rateable value ratio and the adjustment coefficient as varied by this order
with the substitution for references to their area of references to the area of Inner London; and in sub-paragraphs (*q*) and (*r*) for references to the council of references to the Inner London Education Authority;		
(3) The additional factor set out in sub-paragraph (*u*) of paragraph 2 above	Multiplying that number by the product of £17.11, the Greater London rateable value ratio and the adjustment coefficient	Multiplying that number by the product of £18.04, the Greater London rateable value ratio and the adjustment coefficient as varied by this order

8. The adjustment coefficients set out in the Table in Schedule 1 to the Order shall be varied in relation to the council of a London borough or the Common Council of the City of London by substituting for the number in column 2 set opposite the name of the council in column 1 of the table in that Schedule the number in column 2 set opposite the name of the council in the following table.

TABLE

Column 1	Column 2
the council of the London Borough of Barking	0.9377
the council of the London Borough of Barnet	0.8693
the council of the London Borough of Bexley	0.9071
the council of the London Borough of Brent	0.7778
the council of the London Borough of Bromley	0.8487
the council of the London Borough of Camden	0.4212
the council of the London Borough of Croydon	0.8086
the council of the London Borough of Ealing	0.8476
the council of the London Borough of Enfield	0.8882
the council of the London Borough of Greenwich	0.8366
the council of the London Borough of Hackney	0.8271
the council of the London Borough of Hammersmith	0.8053
the council of the London Borough of Haringey	0.8585
the council of the London Borough of Harrow	0.9114
the council of the London Borough of Havering	0.9059
the council of the London Borough of Hillingdon	0.7222
the council of the London Borough of Hounslow	0.7454
the council of the London Borough of Islington	0.6886
the council of the Royal Borough of Kensington and Chelsea	0.5223
the council of the Royal Borough of Kingston upon Thames	0.8329
the council of the London Borough of Lambeth	0.7902

22nd November 1977.

We consent,

Donald R. Coleman,
T. E. Graham,
Two of the Lords Commissioners of Her Majesty's Treasury.

23rd November 1977.

EXPLANATORY NOTE

(This Note is not part of the Order.)

This Order came into operation on 16th December 1977 and increases the rate support grants for the financial year 1977-8.

Specifically it—

(*a*) increases from £6,157,000,000 to £6,470,000,000 the aggregate amount of the rate support grants (payable to local authorities in England and Wales under Part I of the Local Government Act 1974);

(*b*) increases the aggregate amount of the needs element of rate support grants, while varying the manner of determining additional amounts attributable to certain additional factors prescribed by the Rate Support Grant Order 1976 (which are not themselves varied);

(*c*) specifies the actual aggregate amount of the resources element, after making an adjustment necessary to maintain the expected ratio between the resources element and the needs element; and

(*d*) increases the aggregate amount of supplementary grants for transport purposes and National Parks.

These increases are referable to the increase in the level of costs since the grants for the year 1977-8 were originally fixed.
