EXPLANATORY NOTE

(This Note is not part of the Order.)

This Order came into operation on 23rd December 1976 and further increases the rate support grants for the financial year 1975–6.

Specifically it—

(*a*) increases from £5,747,000,000 to £5,788,000,000 the aggregate amount of the rate support grants (payable to local authorities in England and Wales under Part 1 of the Local Government Act 1974);

(*b*) increases the aggregate amount of the needs element of rate support grants, while varying the manner of determining additional amounts attributable to certain additional factors prescribed by the Rate Support Grant (No. 2) Order 1974 (which are not themselves varied);

(*c*) specifies the actual aggregate amount of the resources element, after making an adjustment necessary to maintain the expected ratio between the resources element and the needs element; and

(*d*) increases the aggregate amount of supplementary grant for transport purposes.

These increases are referable to the increase in the level of costs since the grants for the year 1975–6 were first revised. (The Rate Support Grant (Increase) (No. 2) Order 1975).
