fares if certain conditions are complied with. These conditions include requirements that records of such journeys must be kept and that the drivers must carry work tickets during the journeys. These Regulations re-enact with amendment the Public Service Vehicles (Contract Carriage Records) Regulations, 1934, which prescribed the particulars to be contained in such records and work tickets. The principal changes are that the actual forms of these documents are now prescribed including a form for a Combined Work Ticket and Record which may be used instead of separate documents. Both documents are now required to contain the name(s) of the driver(s), the mileage and the registration mark of the vehicle and the record is required to be signed by the holder of the public service vehicle licence relating to the vehicle, or by a person authorised by him.

EXPLANATORY NOTE

(This Note is not part of the Regulations, but is intended to indicate their general purport.)

These Regulations re-enact the provisions of Regulation 20 of and the Third Schedule to the Road Vehicles (Registration and Licensing) Regulations, 1949 (S.I. 1949 (No. 1618) I, p. 3869), which allotted to County Councils the index marks to be assigned to vehicles on registration under the Vehicles (Excise) Act, 1949. Certain additional index marks are also now allotted. The 1949 Regulations have been revoked and in other respects replaced by the Road Vehicles (Registration and Licensing) Regulations, 1951 (S.I. No. 1381).
