STATUTORY RULES OF A GENERAL CHARACTER ISSUED IN 1982

1982 No. 1

CLEAN AIR

Smoke Control Areas (Exempted Fireplaces) Regulations (Northern Ireland) 1982

Made . . . . . *4th January 1982*

Coming into operation . . . *15th February 1982*

The Department of the Environment, in exercise of the powers conferred on it by Article 17(7) of the Clean Air (Northern Ireland) Order 1981(a) and of every other power enabling it in that behalf, being satisfied that the class of fireplace described in column (1) of the Schedule can be used for burning fuel other than authorised fuels without producing a substantial quantity of smoke, hereby makes the following regulations:—

Citation and commencement

1. These regulations may be cited as the Smoke Control Areas (Exempted Fireplaces) Regulations (Northern Ireland) 1982 and shall come into operation on 15th February 1982.

Exempted fireplaces

2. The class of fireplace prescribed in column (1) of the Schedule shall, subject to the conditions specified in column (2) thereof, be exempted from the provisions of Article 17 of the Clean Air (Northern Ireland) Order 1981.

Sealed with the Official Seal of the Department of the Environment for Northern Ireland on 4th January 1982.

(L.S.) *J. S. Younger*
Assistant Secretary

(a) S.I. 1981/158 (N.I. 4)

SCHEDULE Regulation 2

(1)	(2)
Class of fireplace	*Conditions*
The Rayburn Coalglo C-30 manufactured by Glynwed Domestic and Heating Appliances Limited.	The fireplace shall be installed, maintained and operated so as to minimise the emission of smoke at all times and in accordance with the manufacturer's instructions dated 1st September 1981 and bearing the reference "Code 510". No fuel shall be used other than selected washed coal doubles and trebles (also known as nuts and large nuts).

EXPLANATORY NOTE

(This note is not part of the Regulations.)

Article 17 of the Clean Air (Northern Ireland) Order 1981 empowers district councils to declare the whole or any part of their district to be a smoke control area in which the emission of smoke is, generally, prohibited. It also empowers the Department to prescribe, subject to conditions, classes of fireplaces which can be used for burning fuel other than an authorised fuel without producing any smoke or a substantial quantity of smoke. These regulations exempt the Rayburn Coalglo C-30 fireplace from the provisions of that Article.
