EXPLANATORY NOTE

(*This note is not part of the Regulations but is intended to indicate their general purport.*)

Invalid carriages are at present defined by the Road Traffic Act (Northern Ireland) 1955 as (in part) "mechanically-propelled vehicles the weight of which unladen does not exceed 5 cwt.". However, modern types of invalid carriage now weigh more than this, and the purpose of these Regulations is to ensure that these vehicles and their drivers are subject to the same restrictions and receive the same concessions as were intended to apply in respect of invalid carriages.
