PART II

GRANTS UNDER SECTION 93 (1) (A) OF THE ACT IN CONNECTION WITH ACQUISITION, CLEARING AND PRELIMINARY DEVELOPMENT OF LAND FOR WAR DAMAGE REDEVELOPMENT

Expenditure eligible for grant under this part

5.—(1) Grant shall be payable by the Minister to local authorities in respect of expenditure incurred by them whether before or after the first day of April, 1959, in connection with

(*a*) the acquisition for war damage redevelopment of land approved by the Minister for the purposes of this part of these regulations (referred to in these regulations as " part II approved land ") being land acquired under Part I of the Act of 1944 or section 38 or 40 of the Act (including land acquired by virtue of section 19 of the Act), and

(a) 52 & 53 Vict. c. 63.

(*b*) the clearing and preliminary development of any land falling within the last foregoing sub-paragraph.

(2) For the purposes of this part of these regulations land appropriated by a local authority to a purpose, being a purpose in respect of which grant would be payable thereunder in connection with the acquisition of the land had it been acquired for that purpose, shall be treated as if it had been acquired for that purpose and at a cost of such amount as shall be determined by the Minister.

(3) The expenditure which may be reckoned as expenditure incurred in connection with the acquisition, clearing and preliminary development of part II approved land shall for the purposes of these regulations be such as may be approved by the Minister with the consent of the Treasury after deduction of such contributions, receipts, credits or other items received by or due to the local authority in respect of the land concerned as the Minister with such consent may determine, and such expenditure may include any sums or any parts of sums paid by local authorities in connection with any restriction imposed on the development or use of the land by or under any enactment (whether by way of compensation or by way of contribution towards damage or expenses incurred in consequence of the restriction) provided that grant has not been paid or become payable in respect thereof under these or any other regulations made under sections 93 or 94 of the Act.

Conditions of payment of grant

6. The payment of grant in pursuance of this part of the regulations shall be dependent upon the fulfilment of the following conditions:—

(*a*) that each case is approved by the Minister for the purposes of these regulations;

(*b*) that the local authority shall, where the carrying out of any works by them is necessary to achieve the purpose for which the land was acquired, carry out the works in a reasonably expeditious manner and shall, in a case where disposal of the land is necessary to achieve the said purpose, effect its disposal in a manner approved by the Minister.

Calculation and amount of grant

7.—(1) Subject to the provisions of paragraph (2) of regulation 4, grant in respect of part II approved land shall be payable annually for such period in relation to any part II expenditure as the Minister may determine (but not exceeding sixty years) and shall be in respect of each financial year 50 per cent. of the amount arrived at by—

(*a*) taking in respect of part II expenditure defrayed out of money borrowed by the local authority the amount of the notional loan charges calculated by reference to the expenditure so defrayed up to the end of the financial year for which the grant is being calculated and adding to that amount the amount of any part II expenditure defrayed in that financial year otherwise than as aforesaid; and

(*b*) taking the amount of the annual equivalent of the capital value of so much of the approved land as the Minister shall at the end of each financial year determine plus the amount of any income received during that year in respect of the balance of the approved land; and

(*c*) subtracting from the total amount arrived at under sub-paragraph (*a*) of this paragraph the total amount arrived at under sub-paragraph (*b*) thereof.

(2) In this regulation "the annual equivalent of the capital value" means the amount of the annual payment that would be required to repay the amount represented by the capital value if that last-mentioned amount had been borrowed from the Public Works Loan Commissioners at the time of development, appropriation, sale or disposal and were repayable, together with interest at the rate appropriate to such a borrowing, by equal annual instalments of principal and interest combined over a period of sixty years.

Increased rate of grant in certain cases

8. As respects land of any of the following descriptions, that is to say—

(*a*) land comprised in a compulsory purchase order made by a local authority under the Act of 1944, or the Act, and confirmed before the twenty-sixth day of February, 1954, being land acquired for any of the purposes specified in sub-paragraph (*a*) of subsection (5) of section 93 of the Act as that section has effect apart from the provisions of section 50 of the Act of 1954, and

(*b*) land acquired by agreement for any of those purposes with the consent of the Minister given before that date, and

(*c*) land appropriated by a local authority for any of those purposes before that date, and

(*d*) land acquired or appropriated for any of those purposes (whether before or after that date), being land contiguous or adjacent to land falling within any of the preceding paragraphs of this regulation,

regulation 7 shall apply as if for the references in paragraph (1) thereof to 50 per cent. and part II expenditure there were substituted, respectively, references to 90 per cent. and to such portion of part II expenditure as relates to that land :

Provided that the land is in each case approved by the Minister for the purposes of this regulation and also that grant shall not be payable in respect of any such land at a higher rate in respect of a year or part of a year which together with the preceding years or parts of years in respect of which grants at a higher rate have been paid in the case of that land, would extend beyond the total period of five, or, as the case may be, eight years as determined by the Minister.

Expenditure eligible for grant under this part

9.—(1) Subject to the provisions of regulation 10, grant shall be payable by the Minister to local authorities under this part of these regulations in respect of expenditure incurred by those authorities in the payment of compensation in respect of land of the National Coal Board to which the Fifth Schedule to the Act applies by virtue of regulations under section 90 of the Act (other than compensation payable in respect of land compulsorily acquired by virtue of section 19 of the Act), or in taking any action under section 25 or 26 of the Act in respect of such land of the National Coal Board as aforesaid.

(2) The expenditure incurred as aforesaid shall for the purposes of these regulations be such as may be approved by the Minister with the consent

of the Treasury after deduction of any such contributions towards that expenditure as the Minister may with such consent determine.

Conditions of payment of grant

10. The payment of grant in pursuance of this part of these regulations shall be dependent upon the fulfilment of the following conditions:—

(*a*) that each case is approved by the Minister for the purposes of these regulations, which approval may be given subject to a limitation of the amount of expenditure which will be eligible for grant under the last preceding regulation; and

(*b*) that the Minister is satisfied that the local authority acted with reasonable care in the events which gave rise to the action in respect of which the expenditure was incurred.

Calculation and amount of grant

11. Subject to any limitation imposed by the Minister under the last preceding regulation, grant shall be payable annually for such period in relation to any part III expenditure as the Minister may determine (but not exceeding sixty years) and shall be in respect of any financial year 50 per cent. of the amount arrived at by taking in respect of part III expenditure defrayed out of money borrowed by the local authority the amount of the notional loan charges calculated by reference to the aggregate amount of such expenditure so defrayed up to the end of the year for which the grant is being calculated and adding to that amount the amount of any part III expenditure defrayed in that financial year otherwise than as aforesaid.

PART IV

REVOCATION AND SAVING

12.—(1) The Town and Country Planning (Grants) Regulations, 1956(a), are hereby revoked.

(2) Any expenditure approved by the Minister under the said regulations of 1956, being expenditure in respect of which grant is payable under these regulations, shall be deemed to be approved under these regulations.
