(2) Any State Scholarship awarded and current at the date on which these Regulations come into operation or promised under any of the Regulations which are hereby revoked shall be deemed to be a State Scholarship awarded or promised under these Regulations, and any University Supplemental Award awarded and current on the said date or promised under the Regulations hereby revoked shall be deemed to be a State Scholarship awarded or promised under these Regulations to the holder of a University Award.

Given under the Official Seal of the Minister of Education this 5th day of July, 1951.

(L.S.)

D. R. Hardman,
Parliamentary Secretary to the Ministry of Education.

EXPLANATORY NOTE

(*This Note is not part of the Regulations, but is intended to indicate their general purport.*)

These Regulations replace, in a single and simplified code of requirements, the existing three bodies of Regulations governing the award of the three types of State Scholarship and University Supplemental Awards. The principal changes are that University Supplemental Awards will in future be known as State Scholarships, like the other awards covered by the Regulations, the discontinuance of the requirement of at least two years' attendance at a Secondary School immediately before the candidate takes the examination, the discontinuance of the restriction of the awards to British subjects, in respect of award to which that restriction has hitherto applied, and the omission of detailed provisions as to the number of the several types of award to be offered, precise age-limits, etc. These matters of detail will in future be dealt with through the public announcements which are made each year about the conditions of entry for the awards.
