EXPLANATORY NOTE

(This Note is not part of the Order, but is intended to indicate its general purport.)

This Order, which comes into operation on the 1st October, 1959, amends the Tuberculosis (Compensation) Order, 1950, by altering the scale of compensation for bovine animals slaughtered under the powers of Section 17 of the Diseases of Animals Act, 1950. The compensation at present is normally the market value of the animal but in future it is to be three-quarters of the market value and that value is to be determined not as at present as if the animal were untested but as if it were in fact free from tuberculosis.

EXPLANATORY NOTE

(This Note is not part of the Order, but is intended to indicate its general purport.)

This Order, which comes into operation on the 1st October, 1959, amends the Tuberculosis (Slaughter of Reactors) Order, 1950, by altering the definition of " market value " of a bovine animal slaughtered under the provisions of Section 17 of the Diseases of Animals Act, 1950, so as to make it conform with the altered definition in the Tuberculosis (Compensation) Amendment Order, 1959 (S.I. 1959/1460). This alteration leaves unchanged the actual method of ascertaining the value of the animal.
