The Wages Regulation (Jute) Order, 1958

Made - - - - 31*st December*, 1958
Coming into Operation 14*th January*, 1959

Whereas the Minister of Labour and National Service (hereafter in this Order referred to as "the Minister") has received from the Jute Wages Council (Great Britain) the wages regulation proposals set out in the Schedule hereto;

Now, therefore, the Minister, by virtue of the powers conferred on him by section 10 of the Wages Councils Act, 1945(a), and of all other powers enabling him in that behalf, hereby makes the following Order:—

1. This Order may be cited as the Wages Regulation (Jute) Order, 1958.

2.—(1) In this Order the expression "the specified date" means the 14th day of January, 1959, provided that where, as respects any worker who is paid wages at intervals not exceeding seven days, that date does not correspond with the beginning of the period for which the wages are paid, the expression "the specified date" means, as respects that worker, the beginning of the next such period following that date.

(2) The Interpretation Act, 1889(b), applies to the interpretation of this Order as it applies to the interpretation of an Act of Parliament.

3. The wages regulation proposals set out in the Schedule hereto shall have effect as from the specified date and as from that date the Jute Wages Council (Great Britain) Wages Regulation Order, 1956(c), and the Wages Regulation (Jute) (Amendment) Order, 1957(d), shall cease to have effect.

(iii) in addition to the rate or rates applicable under provision (i) of sub-paragraph (*b*) of this paragraph, in the case of a worker (irrespective of age or sex) to whom there applies a general minimum piece rate specified in Part IV of this Schedule an amount calculated in accordance with the provisions of paragraph 10 of this Schedule:

Provided that where an hourly guaranteed time rate is applicable to a worker and the worker's minimum remuneration calculated on a time work basis at that rate exceeds the minimum remuneration calculated under the provisions of sub-paragraph (*b*) of this paragraph, the worker shall be paid at not less than that guaranteed time rate.

The work to which the foregoing rates apply includes cleaning and blowing down frames, starting and stopping frames when required, and other usual spinners' duties. In the case of single spinners, it includes shifting a carriage:

Provided that in cases where spinners are working on two sizes of bobbins which fall under different scales in the foregoing Table, the general minimum time rate payable shall be based on the weighted average of the rates for the respective sizes arrived at as follows:—

By taking for each size of bobbin the rates for double spinners set out in the said Table for the total number of spindles attended and multiplying each such rate by the number of bobbins attended of the respective size, adding the products and dividing the result by the total number of spindles attended:

Provided that when the rate so obtained contains a fraction of a penny, any such fraction less than ½d. shall be disregarded and any such fraction if ½d. or more shall be counted as 1d.

For example, the general minimum time rate for a spinner attending 118 spindles, namely 66 spindles with 3¼-inch bobbins and 52 spindles with 5-inch bobbins is calculated as follows:—

Under column 2—

$$\frac{(113\text{s. } 2\text{d.} \times 66) + (121\text{s. } 9\text{d.} \times 52)}{118} = 116\text{s. } 11\tfrac{3}{59}\text{d.}$$

The general minimum time rate in the case in question is accordingly 116s. 11d. per week of 45 hours.

(ii) where the size of yarn is greater than the normal size of yarn as specified in sub-paragraph (2) of this paragraph, the general minimum time rates set out in the foregoing table shall be increased as follows:—

Size of bobbins						
2½ in. ...	For every	½ lb.	per spyndle	above	4 lbs. ...	2 per cent.
2¾ in. ...	„	½ lb.	„	„	5 lbs. ...	2 „

For any intermediate size of yarn the rate for the next higher size shall be paid.

No extra shall be paid for weft and no deduction shall be made for hard warp.

(2) For the purposes of this paragraph the normal size of yarn used on a bobbin is as follows:—

Size of bobbin	Normal size of yarn

12. The general minimum piece rates specified in paragraph 11 are subject to the following allowances and extras:—

(*a*) For narrow cloth in wide looms:—

(i) For looms up to and including a total reed space of 80 inches no allowance shall be made for cloth the yarn width of which (including selvages) in the reed is within 10 inches of the total reed space. If the yarn as measured within the reed (including selvages) is narrower than this, one-sixth of the total difference in inches between the yarn width and the total reed space shall be added to the cloth width.

(ii) For looms of a total reed space exceeding 80 inches no allowance shall be made for cloth the yarn width of which (including selvages) in the reed is within 10 inches or 10 per cent. of the total reed space, whichever is the greater. If the yarn as measured within the reed (including selvages) is narrower than this, one-sixth of the difference in inches between the yarn width on the one hand and the total reed space less 10 inches or 10 per cent. (whichever is the greater) on the other hand, shall be added to the cloth width.

(*b*) Where the weaver strips the cloth off the cloth pin ... ... 2 per cent. extra.

(*c*) Where the weaver ties on ... ... 2½d. per 100 threads extra.

(*d*) Where the weaver does any fileying an extra shall be paid to be mutually arranged between employer and worker, provided that such extra shall be at a rate not less than the appropriate general minimum time rate.

(*e*) For centre selvages:—

If unsplit in the loom—

5 per cent. extra for the first centre selvage;
3 per cent. extra for each centre selvage thereafter.

If split in the loom by the weaver—

A further 2 per cent. extra for each centre selvage so split.

(*f*) For the weaving of fabrics with dyed and/or bleached threads in the warp:—

(i) (*a*) Up to 10 per cent. of dyed and/or bleached single jute threads ... ... No extra.

(*b*) For each additional 2 per cent. of dyed and/or bleached single jute threads or part thereof ... 1 per cent. extra.

(ii) For warps consisting entirely of dyed and/or bleached single jute threads ... ... 36 per cent. extra.

(iii) For warps consisting entirely of dyed and/or bleached single jute threads with a stripe or stripes ... 45 per cent. extra.

(*g*) For heavy wefts extras to be paid under the following scale on the calculated weight of weft to give the required weight of cloth:—

Length of cop.	Diameter of cop.	Weight of yarn (in lbs.) per spyndle.									
9 inches but less than 10 inches	1⅜ inches ...	9	10	11	12	13	14	15	16	17	18

* For cops 10 inches long or over, ½ per cent. less.
„ „ over 8 inches but under 9 inches long, an additional 1 per cent.

(*h*) Where cloth is woven one thread in a split:—

8 porter in 16 reed ... ... 2½ per cent. extra, and thereafter for every ½ porter in excess of 8 porter, an additional 2½ per cent.

13. In determining the general minimum piece rates applicable the following provisions apply:—

(*a*) No difference shall be made for quality;

(*b*) Shots shall be counted by the inch;

(*c*) Fractions shall be dealt with as follows:—

Fractions of One Shot—
Under ¼ shall not count.
¼ and under ¾ shall count as ½.
¾ and over shall count as 1.

Fractions of One inch—
Under ½ inch shall not count.
½ inch and over shall count as 1 inch.

(*d*) No extras shall be payable for long lengths in linoleum goods;

(*e*) Where the number of threads in the warp is increased above the normal build for which payment is made, the width of cloth to be paid for shall be that which the threads would give if not crowded;

(*f*) The work to which the piece rates apply shall include the making good of weaving faults by the weaver, in accordance with the hitherto accepted practice of the trade, and the other usual duties performed by the weaver, such as keeping the loom clean and removing the waste from it;

(*g*) Where the wages due contain a fraction of a penny, any such fraction shall be treated as a penny.

14. For the purpose of the general minimum piece rates set out in this Part of this Schedule:—

(*a*) A single loom weaver is a weaver who actually tends only one loom, other than a weaver specified in (*b*) (ii) below;

(*b*) A double loom weaver is a weaver who—

(i) is actually tending two looms, or

(ii) regularly tends two looms, but who, owing to a stoppage of one of the looms, tends only one loom for an aggregate period not exceeding 8¼ hours in any one week, or for a continuous period not exceeding 8¼ hours;

(*c*) The standard length is 100 yards (36 inch measure) of yarn laid;

(*d*) The standard width is 40 inch of finished cloth;

(*e*) The standard fabric is 10½ oz. 40 in. 11 porter 13½ shots per inch loom count: Hessian.

WORK TO WHICH GENERAL MINIMUM PIECE RATES APPLY

15. For the purposes of this Schedule, the expression "hessian weaving" means the weaving of all hessian, floor-cloth and linoleum goods, other than those woven in looms the reed space of which is 32 inches or narrower.
