EXPLANATORY NOTE

(This note is not part of the Regulations.)

These Regulations replace the Weights and Measures (Testing and Adjustment Fees) Regulations (Northern Ireland) 1989.

The Regulations prescribe the fees to be paid—

(*a*) for the testing of weighing or measuring equipment with a view to its being passed as fit for use for trade and stamped;

(*b*) for the adjustment of weights and measures;

(*c*) for the retesting of meter measuring systems used for measuring liquid fuel delivered from road tankers following the destruction, obliteration or defacement of an inspector's stamp on such a system in the circumstances as described in regulations 65 and 66 of the Measuring Equipment (Liquid Fuel by Road Tanker) Regulations (Northern Ireland) 1984. The fee in the circumstances as described in regulations 65 and 66 is changed from a man/hour rate to a single specific fee covering both circumstances; and

(*d*) for the testing of equipment which is submitted for testing by means of statistical sampling techniques.

The Regulations prescribe the fees to be paid for a new category of measuring instrument for measuring liquid fuel or lubricants, or mixtures thereof. They also generally increase all existing fees.

The prescribed fees are payable whether or not the equipment is passed as fit for use for trade.
